Venture Capital Performance Keith Arundale, 2019-11-22 European venture capital VC funds have historically underperformed their US counterparts This has resulted in reduced investment into European VC by the traditional institutional investors This book investigates the factors that give rise to the performance difference It is based on the author s research at the Adam Smith Business School University of Glasgow which involved a qualitative study of some 64 VC firms in the UK continental Europe and the US supplemented by 40 interviews with other stakeholders including limited partner investors corporate venturers entrepreneurs and advisors Readers will gain an in depth understanding of the various structural operational and wider environmental factors that impact on the performance difference between UK European and US VC funds The study is unique in that it provides for the first time a holistic and extensive analysis of the entire investment process from sourcing deals to exiting deals specifically contrasting Europe and the US in terms of the variables pertaining to the investment

process and the impact on the fund performance Factors impacting on the performance differential are structural resulting from characteristics of the funds themselves operational such as the investment practices of the VC firms which manage the funds and environmental such as culture and attitude to risk and the wider ecosystem in which the funds operate These factors are set out clearly for the reader The characteristics of the better performing funds in Europe and the US are also investigated The book is aimed at academics who are researching venture capital fund performance and investment practices and also at practitioners advisors and policymakers who want to learn about best VC investment practices Whilst the book is focused on European and US VC investing the best practices are also pertinent for VC firms and funds setting up in other geographies particularly in emerging markets To this end best practice guidelines based on the research are included

Towards an Anthropology of Psychology Mikkel Kenni Bruun, Rebecca Hutten, 2025-10-01 Anthropology and psychology share a long history of rivalry collaboration and mutual disregard This volume reconsiders psychology as a field of anthropological enquiry In doing so it takes an ethnographic approach to psychology examining psychotherapeutic practices and models of mental health at the heart of psy Featuring ethnographic studies of psychological therapies subjects and professionals the book also suggests what an anthropological voice can offer to improve psychological healthcare At the cutting edge of ethnographic research this book brings together studies from the Global North and Global South showing how psychological realities shape our understandings of what it means to be human *Insane Mode* Hamish McKenzie, 2018 Tells the story of Tesla and argues that under Elon Musk s insane mode leadership the company is bringing an end to the era of gasoline powered transportation Rebooting Work Maynard Webb, Carlye Adler, 2013-01-17 From Silicon Valley leader Maynard Webb how we can leverage technology to change how we work Maynard Webb has always been the go to guy when Silicon Valley companies have thorny problems Whether revamping eBay s crashing servers transforming their technology weaknesses into a competitive strength or investing in emerging technology start ups Webb brings strategic and operational savvy to every issue and venture In his first book Webb brings this same focus to tackle outdated models of work created a century ago which no longer sync up with either individual or employers needs Through a unique framework Webb identifies 4 different mindsets around work the company man CEO of your own destiny disenchanting employee and the aspiring entrepreneur It organizes those who are self motivated versus those who are waiting to be discovered and aims to give readers the tools to become more self actualized happier and ultimately more fulfilled in their careers In identifying a paradigm shift that is already under way Webb demonstrates clearly how to harness technology to embrace our own personal happiness allowing people to become more productive at work and also spend more time with their families Contains a framework that demonstrates how we can leverage technology to create better job opportunities and foster more balanced lives Written by Maynard Webb chairman of LiveOps former COO of e Bay founder of Webb Investment Network WIN and board member of Yahoo and salesforce com Includes personalized worksheets and empowering action oriented advice

Rebooting Work reveals how anyone can take control of his or her own future finding greater fulfillment productivity and happiness *The Methuselah Effect* Patrick Cox,2016-10-06 Many people believe that humanity s survival is threatened by catastrophic overpopulation The author believes that nothing could be further from the truth In fact the greatest threat to modern society in North America Japan and Europe is a global decline in birth rates combined with a massive tidal wave of retirees that will overwhelm our economies and social welfare systems However bioscience is on the verge of providing a solution groundbreaking life extension research could help us be productive and self sufficient for much longer and live healthily to 100 years and beyond Alzheimer s cancer heart disease diabetes liver fibrosis arthritis even wrinkles may soon be problems of the past Back cover *Hermeneutics, History, and Technology* Armin Grunwald,Alfred Nordmann,Martin Sand,2023-06-01 For better and worse the future is often conceived in technological terms Technology is supposed to meet the challenge of climate change or resource depletion And when one asks about the world in 20 or 100 years answers typically revolve around AI genome editing or geoengineering There is great demand to speculate about the future of work the future of mobility Industry 4 0 and Humanity 2 0 The humanities and social sciences science studies and technology assessment respond to this demand but need to seek out a responsible way of taking the future into account This collection of papers interviews debates grew out of disagreements about technological futures speculative ethics plausible scenarios anticipatory governance and proactionary and precautionary approaches It proposes Hermeneutic Technology Assessment as a way of understanding ourselves through our ways of envisioning the future At the same time a hermeneutic understanding of technological projects and prototypes allows for normative assessments of their promises Is the future an object of design This question can bring together and divide policy makers STS scholars social theorists and philosophers of history and it will interest also the scientists and engineers who labor under the demand to deliver that future

The novel begins with Richard Pape, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
