Minding the South John Shelton Reed, 2017-07-12 For over three decades John Shelton Reed has been minding the South He is the author or editor of thirteen books about the region Despite his disclaimer concerning the formal study of Southern history Reed has read widely and in depth about the South His primary focus is

upon Southerners present day culture but he knows that one must approach the South historically in order to understand the place and its people Why is the South so different from the rest of America Rupert Vance Reed s predecessor in sociology at Chapel Hill once observed that the existence of the South is a triumph of history over geography and economics The South has resisted being assimilated by the larger United States and has kept a personality that is distinctly its own That is why Reed celebrates the South The chapters in this book cover everything from great thinkers about the South Eugene D Genovese C Vann Woodward M E Bradford to the uniqueness of a region that was once a hotbed of racism but has recently attracted hundreds of thousands of black people transplanted from the North There are also chapters about Southerners who have devoted their talents to politics soft drinks rock and roll and jewelry design Reed writes with wit and Southern charm never afraid to speak his mind even when it comes to taking his beloved South to task While readers may not share all his opinions most will agree that John Shelton Reed is one of the best South watchers there is

Who's who Among Students in American Universities and Colleges Henry Pettus Randall, 1990 *Who's who Among Students in American Universities and Colleges*, 2000 **Investigate Everything** Theodore Kornweibel, 2002 Free speech for African Americans during World War I had to be exercised with great caution The federal government spurred on by a

super patriotic and often alarmed white public determined to suppress any dissent against the war and enforce on the black population one hundred percent patriotism These pressures were applied by America s modern political intelligence system which emerged during the war Its major partners included the Bureau of Investigation renamed the FBI in 1935 the Military Intelligence Division and the investigative arms of the Post Office and State departments Numerous African American individuals and institutions as well as enemy aliens believed to be undermining black loyalty became their targets Fears that the black population was being subverted by Germans multiplied as the United States entered the war in April 1917 In fact only a handful of alleged enemy subversives was ever identified and none was found to have done anything more than tell blacks that they had no good reason to fight or that German would win Nonetheless they were punished under wartime legislation which criminalised anti war advocacy in one notorious case when federal officials were unable to prosecute an alleged spy they concocted other charges with which to harass him for years even after the war ended A much greater proportion of blacks was disenchanted with the war than has been previously acknowledged Considerable numbers were privately apathetic while others publicly expressed dissatisfaction or opposition to the war So serious was this disillusionment that the Military Intelligence Division initiated efforts to improve blacks morale but to little effect In fact black men evaded the draft at a much higher rate than did whites and they were dealt with punitively when apprehended by the Bureau of Investigation Black editors who openly criticised the government or forcefully condemned lynching faced the threat of suppression and were forced to trim their editorial sails Among those menaced were the editors of the Chicago Defender the most widely read black newspaper and the Crisis the NAACP s influential monthly magazine Another black editor served a penitentiary sentence for protesting against the army s racist policies And the leadership of the Church of God in Christ was repeatedly investigated and indicted for that denomination s belief that active participation in war was sinful Although the federal intelligence establishment was not able to suppress all black disaffection during World War I it forced black editors to censor themselves compelled an entire church denomination to repeatedly defend its conscientious objection to war threatened other individuals into prudent silence and jailed hundreds of black men without judicial proceedings for failing to comply with the selective service system All these efforts to silence black protest established precedents for further repression of black militancy during the post war Red Scare the subject of the author s book *Seeing Red Federal Efforts to Suppress Black Militancy 1919 1925* Grants for Religion, Religious Welfare, & Religious Education ,2006 **Charisma and Christian Life** ,1989 *Fourth of July Butterfly Counts ...
