Cleon Skousen's The Naked Communist Everest Media,2022-07-21T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Communist solution to world problems is to use a Marxist law to predict the course of future human development They believe that men are victims of material forces that surround them and that they cannot choose the kind of society in which they will live 2 Marx and Engels believed that all historical developments are the result of Economic Determinism which means that man s effort to survive They believed that everything men do is simply the result of their desire to protect whatever mode of production they are currently using to secure the necessities of life 3 According to Marx and Engels men cannot choose any one of several forms of society but they can only choose the one that promotes the prevailing mode of production The thing we call free will is simply an awareness of the impelling forces that move us to action 4 Marx and Engels believed that the mode of production and the means of distribution always produced two basic classes of people those who owned the means of production and became exploiters and those who owned nothing and were forced to sell or trade their physical labor to survive *The naked Communist, by W. The Compromising of America RICHARD MCKENZIE NEAL,2011-09-26 We re currently living in a fantasy world of smoke and mirrors where almost one half of our population is receiving some level of unearned welfare financial assistance and or various other entitlement benefits The number of beneficiaries has not only grown steadily over the generations but has now reached a point where it has become a way of lifethe norm We ve all heard about the special interest groups in Washington well guess what Government is its own special interest groupthe biggest special

interest group of all With no term limits members become so entrenched by catering to their special interest groups that their reelections are almost guaranteed each reelection cycle Government is now only the stooge perpetuating Ponzi economics Wars are being waged to support the scheme It is now job creation and economic growth at all costs when jobs and economic growth are the problems not the solution Ponzi credit has created too many jobs And most of those jobs have nothing to do with individuals making a living or creating tangibles This planet no longer has government It has disablement The global Ponzi credit system is the greatest crime against humanity ever perpetrated It has squandered the planet's resources and institutionalized unsustainability It has created money flow control and power that make their way into the hands of the undeserving It has created a global frenzy for profit Humanity had almost defeated all its predation competition and disease only to find itself competing and preyed upon by the worst competition imaginable itself It has institutionalized necessity for economic growth and population increase when the planet cannot sustain it The game controllers are poised to profit from dwindling resources through commodity investment and war The world's jobs are dependent on the continuation of Ponzi credit creation
