

ETERNAL DARKNESS

'The Night Land is a tale of the remote future – billions of years after the death of the sun. It is one of the most potent pieces of macabre imagination ever written. ... there is a sense of cosmic alienage, breathless mystery, and terrified expectancy unrivalled in the whole range of literature... this fantasy of a night-black, dead planet, with the remains of the human race concentrated in a stupendously vast metal pyramid and besieged by monstrous, hybrid and altogether unknown forces of darkness, is something that no reader can ever forget'

H.P. LOVECRAFT

'If good stories are commentaries on life, good novels of fantasy are actual additions to life. They give, like certain rare dreams, sensations we never had before, and enlarge our conception of the range of possible experience. Specimens of this kind will never be common. ... Tolkien's *The Lord of the Rings*, David Lindsay's *A Voyage to Arctura*, Mervyn Peake's *Titmouse* – and William Hope Hodgson's *The Night Land*, for the unforgettable sombre splendour of the images it presents'

C.S. LEWIS

'The ultimate saga of a fantasy world beleaguered by eternal night and the unvisageable spawn of darkness'

The Night Land "Annotated"

William Hope Hodgson, 2020-11-29 The beginning of the book establishes the framework in which a 17th century gentleman mourning the death of his beloved Lady Mirdath is given a vision of a far distant future where their souls will be re united and sees the world of that time through the eyes of a future incarnation The language and style used are intended to resemble that of the 17th century though the prose has features characteristic of no period whatsoever the almost complete lack of dialogue and proper names for example Critic Ian Bell has suggested that John Milton's epic poem Paradise Lost 1667 is probably a partial literary inspiration for Hodgson's novel especially due to the hellish visions of sombre intensity which mark both works and other similarities including the use of massive structures the Temple of Pandemonium in Milton and the Last Redoubt in The Night Land 3 Once into the book the 17th century framing is mostly inconsequential Instead the story focuses on the future The Sun has gone out and the Earth is lit only by the glow of residual vulcanism The last few millions of the human race are gathered together in a gigantic metal pyramid nearly eight miles high the Last Redoubt under siege from unknown forces and Powers outside in the dark These are held back by a shield known as the air clog powered from a subterranean energy source called the Earth Current For millennia vast living shapes the Watchers have waited in the darkness near the pyramid It is thought they are waiting for the inevitable time when the Circle's power finally weakens and dies Other living things have been seen in the darkness beyond some of unknown origins and others that may once have been human To leave the protection of the Circle means almost certain death or worse an ultimate destruction of the soul As the story commences the narrator establishes mind contact with an inhabitant of another forgotten Lesser Redoubt First one expedition sets off to succour the inhabitants of the Lesser Redoubt whose own Earth Current has been exhausted only to

meet with disaster After that the narrator sets off alone into the darkness to find the girl he has made contact with knowing now that she is the reincarnation of his past love At the conclusion of the adventure the narrative does not return to the framework story instead ending with the homecoming of the couple and his inauguration into the ranks of their most honoured he

The Night Land :Illustrated Edition William

Hope Hodgson,2021-07 William Hope Hodgson was like his contemporaries Algernon Blackwood and Arthur Machen one of the most important prolific and influential fantasists of the early twentieth century His dark and unsettling short stories and novels were shaped in large part by personal experience a professional merchant mariner for much of his life many of Hodgson s tales are set at sea and his work evokes a disturbing sense of the amorphous and horrific unknown While his nautical adventure fiction was very popular during his lifetime the supernatural and cosmic horror he is most remembered for only became well known after his death mainly due to the efforts of writers like H P Lovecraft and Clark Ashton Smith who often praised his work and cited it as an influence on their own By the latter half of the twentieth century it was only his weird fiction that remained in print and his vast catalog of non supernatural stories was extremely hard to find Night Shade Books s five volume series presents all of Hodgson s unique and timeless fiction Each volume contains one of Hodgson s novels along with a selection of thematically linked short fiction including a number of works reprinted for the first time since their original publication The fourth book of the five volume set The Night Land and Other Romances collects all of his romances and women s fiction as well as the entirety of his classic 1912 dying earth novel The Night Land

The Night Land Annotated William Hodgson,2020-04-21 The Night Land is one of Hodgson s handful of novels and is worth a mention not just because of its haunting imagery but also because its premise is relevant to an overarching theme of the weird fiction of the early 1900 s The story is set in a far distant future one so incredibly distant that the Sun has burned out as have in fact all stars in the sky Humanity still survives in this land of eternal night however because of a mystical source of energy known as the Earth Current The remaining humans have sequestered themselves in a massive pyramid known as The Great Redoubt which is powered and protected by the Earth Current and needs to be because the death of the stars has revealed numerous other beings who thrive in the night land and are hostile to humanity My favorite My spy glass showed it to me with clearness a living hill of watchfulness known to us as The Watcher of The South It brooded there squat and tremendous hunched over the pale radiance of the Glowing Dome And so to tell more about the South Watcher A million years gone as I have told came it out of the blackness of the South and grew steadily nearer through twenty thousand years but so slow that in no one year could a man perceive that it had moved Yet it had movement and had come thus far upon its road to the Redoubt when the Glowing Dome rose out of the ground before it growing slowly And this had stayed the way of the Monster The main narrative of the novel concerns the discovery via telepathy by the hero of the story of a previously unknown second Redoubt far away in the darkness The hero falls in love with the woman he communicates with and ventures out into the perilous dark in search of her when the Earth Current of the second Redoubt begins to fail The tale is a fascinating and beautiful one filled with many eerie images It only begins to drag when the hero finds his love and attempts to lead her back across the lands Hodgson s stunningly sexist view of women as meek submissive animals who must be punished physically when they do wrong is quite icky and his endless descriptions of the couple s love for one another grow tiresome All and all

however it is a unique story which blends science fiction fantasy and horror together A theme I will often return to in my blogging is the observation that horror is very much a product of the social conditions and scientific learnings of its time Hodgson s view of a lightless universe in which humanity awaits its inevitable extinction clearly draws inspiration from the new at the time realization that the Earth and its inhabitants have a much older history than previously thought and the realization that the Sun and its fellow stars have expiration dates upon them These realizations came from the biological insights of Darwin and the radioactive insights of Rutherford among many others I ll have more to say about the history of these discoveries and their influence on the weird fiction of the time in another post
