Hischak, 2015-04-16 For more than a century original music has been composed for the cinema From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition music has been

an integral element of most films By the late 1930s movie studios had established music departments and some of the greatest names in film music emerged during Hollywood's Golden Age including Alfred Newman Max Steiner Dimitri Tiomkin and Bernard Herrmann Over the decades other creators of screen music offered additional memorable scores and some composers such as Henry Mancini Randy Newman and John Williams have become household names The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years In addition to composers from the United States and Great Britain artists from dozens of other countries are also represented A rich resource of movie music history The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores

Books of the Dead Tim Lanzendörfer, 2018-08-08 The zombie has cropped up in many forms in film in television and as a cultural phenomenon in zombie walks and zombie awareness months but few books have looked at what the zombie means in fiction Tim Lanzendörfer fills this gap by looking at a number of zombie novels short stories and comics and probing what the zombie represents in contemporary literature Lanzendörfer brings together the most recent critical discussion of zombies and applies it to a selection of key texts including Max Brooks's World War Z Colson Whitehead's Zone One Junot Díaz's short story Monstro Robert Kirkman's comic series The Walking Dead and Seth Grahame-Smith's Pride and Prejudice and Zombies Within the context of broader literary culture Lanzendörfer makes the case for reading these texts with care and openness in their own right Lanzendörfer contends that what zombies do is less important than what becomes possible when they are around Indeed they seem less interesting as metaphors for the various ways the world could end than they do as vehicles for how the world might exist in a different and often better form
