The Flight of the Vernacular Maria Cristina Fumagalli, 2021-10-18 In this book Dante Seamus Heaney and Derek Walcott engage in an eloquent and meaningful conversation Dante's capacity for being faithful to the collective historical experience and true to the recognitions of the emerging self the permanent immediacy of his poetry the healthy state of his language which is so close to the object that the two are identified and his adamant refusal to get lost in the wide and open sea of abstraction all these are shown to have affected and to continue to affect Heaney's and Walcott's work The Flight of the Vernacular however is not only a record of what Dante means to the two contemporary poets but also a cogent study of Heaney's and Walcott's attitude towards language and of their views on the function of poetry in our time Heaney's programmatic endeavour to be adept at dialect and Walcott's idiosyncratic redefinition of the vernacular in poetry as tone rather than as dialect apart from having Dantean overtones are presented as being associated with the belief that poetry is a social reality and that language is

Sacrifice and Modern War Literature Alex Houen, Jan-Melissa Schramm, 2018-06-14 Sacrifice and Modern War Literature is the first book to explore how writers from the early nineteenth century to the present have addressed the intimacy of sacrifice and war It has been common for critics to argue that after the First World War many of the cultural and religious values associated with sacrifice have been increasingly rejected by writers and others However this volume shows that literature has continued to address how different conceptions of sacrifice have been invoked in times of war to convert losses into gains or ideals While those conceptions have sometimes been rooted in a secular rationalism that values lost lives in terms of political or national victories spiritual and religious conceptions of sacrifice are also still in evidence as with the martyrdom operations of jihadis fighting against the war on terror Each chapter presents fresh insights into the literature of a particular conflict and the contributions explore major war writers including Wordsworth Kipling Ford Madox Ford and Elizabeth Bowen as well as lesser known authors such as Dora Sigerson Richard Aldington Thomas Kinsella and Nadeem Aslam The volume covers multiple genres including novels poetry particularly elegy and lyric memoirs and some films The contributions address a rich array of topics related to wartime sacrifice including scapegoating martyrdom religious faith tragedy heroism altruism bare life atonement and redemption

Preposterous Virgil Juan Christian Pellicer, 2022-06-02 This study in reception develops close readings of English literature as means of interrogating Virgil's texts Through four case studies bookended by wide ranging introductory and concluding chapters this book shows how interpreting the Eclogues Georgics and Aeneid through modern responses can serve to focus on aspects of Virgil that would otherwise be differently perceived or else escape notice altogether Juan Christian Pellicer probes our perceptions of the three Virgilian genres pastoral georgic and epic and analyzes the ways in which modern reconfigurations of these genres can inform our readings of Virgil's works as well as help us realize how our own ideas about Virgil reflect the literary receptions through which we approach his texts This book offers a practical demonstration of classical reception and

its value as a critical procedure By testing the value of modern responses to Virgil as means by which to read his texts Pellicer critically examines a central tenet of reception studies of classical authors namely that our understanding of their work can benefit from the receptions through which we perceive them The reader will find Virgil s texts reconfigured in challenging new ways and will find new appreciations of the classical traditions that inform key texts in the English canon
