Russian dogs had more time in space than U S astronauts Over the next decade more than 400 000 scientists engineers and factory workers would send 24 astronauts to the Moon Each hour of space flight would require one million hours of work back on Earth to get America to the Moon on July 20 1969 More than fifty years later One Giant Leap is the sweeping definitive behind the scenes account of the furious race to complete one of mankind s greatest achievements It s a story filled with surprises from the item the astronauts almost forgot to take with them the American flag to the extraordinary impact Apollo would have back on Earth and on the way we live today Charles Fishman introduces readers to the men and women who had to solve 10 000 problems before astronauts could reach the Moon From the research labs of MIT where the eccentric and legendary pioneer Charles Draper created the tools to fly the Apollo spaceships to the factories where dozens of women sewed spacesuits parachutes and even computer hardware by hand Fishman captures the exceptional feats of these ordinary Americans One Giant Leap is the captivating story of men and women charged with changing the world as we knew it their leaders their triumphs their near disasters all of which led to arguably the greatest success story and the greatest adventure story of the twentieth century
