Trajectories The Educational and Social Mobility of Educators from the Poor and Working Class is a collection of mobility narratives of critical scholars in education from poor and working class backgrounds While Americans have long held deep seated cultural beliefs in the capacity of schooling to level unequal playing fields there has been little research on the psycho social processes of social and educational mobility in the United States Rising Up employs narrative research methodologies to interrogate the experiences of class border crossing via success in school This volume addresses two discourses within education First the experiences of those who have crossed class boundaries contribute to a deeper understanding of how social class functions in the United States The narratives compiled in this volume explore class within the lives of young

people on the margins as identities ambition and achievement are constructed and negotiated in school More specifically the volume suggests new directions for policy and practice to counteract classism in schools and in the broader culture As they write of the constraints that they circumvented to succeed against the odds these authors complicate notions of opportunity as the inevitable reward for high achievement As they write of agency and tenacity they will illuminate cultural strengths that likely were invisible to teachers and peers As critical scholars of education the contributors to this volume speak specifically to ways in which teacher education can and should address issues of class *Let'S Get Down to Business* Rayshion Sashington,2017-06-08 Lets Get Down To Business is for the individual or individuals who have always dreamed of starting or owning a business It is my hope that you will take parts of my story that inspire you and use them as motivation to begin working on your dream Boyfriend Shopping Earl Sewell,Caridad Ferrer,Deidre Berry,2014-09-24 Three holidays Many surprises One perfect gift Cover
