The New Revolution A Historic Review Of Civil Conflict

Ann Hughes

The New Revolution A Historic Review Of Civil Conflict:

Major-General Hezekiah Haynes and the Failure of Oliver Cromwell's Godly Revolution, 1594-1704 David Farr, 2020-05-27 Hezekiah Haynes was shaped by the Puritanism of his father's network and experienced emigration to New England as part of a community removing themselves from Charles I's Laudianism. Returning to fight in the British Civil Wars, Haynes rose to become Cromwell's ruler of the east of England, tasked with bringing about a godly revolution and in rising to prominence he became the centre of his own developing political and religious network which included a kin link to Cromwell himself. As one of Cromwell's Major Generals, Haynes was tasked with security and a reformation of manners but he was hampered by the limits of the early modern state and Cromwell's own contradictory political and religious ideas. The Restoration saw Haynes imprisoned in the Tower before emerging to return to the community in which he had been raised and continuing the links with some of those he had worked with for Cromwell and the kin he had left behind in New England in dealing with the norms of early modern life. This book will appeal to specialists in the area and students taking courses on early modern English and American history as well as those with a more general interest in the period. [Transatlantic Anarchism during the Spanish Civil War and Revolution, 1936-1939](#) Morris Brodie, 2020-04-08 Between 1936 and 1939 the Spanish Civil War showcased anarchism to the world. News of the revolution in Spain energised a moribund international anarchist movement and activists from across the globe flocked to Spain to fight against fascism and build the revolution behind the front lines. Those that stayed at home set up groups and newspapers to send money, weapons and solidarity to their Spanish comrades. This book charts this little known phenomenon through a transnational case study of anarchists from Britain, Ireland and the United States, using a thematic approach to place their efforts in the wider context of the civil war, the anarchist movement and the international left. *The Oxford History of Anglicanism, Volume I* Anthony Milton, 2017-01-26 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity. This global study of Anglicanism from the sixteenth century looks at how Anglican identity was constructed and contested at various periods since the sixteenth century and what was its historical influence during the past six centuries. It explores not just the ecclesiastical and theological aspects of global Anglicanism but also the political, social, economic and cultural influences of this form of Christianity that has been historically significant in western culture and a burgeoning force in non-western societies today. The chapters are written by international experts in their various historical fields which includes the most recent research in their areas as well as original research. The series forms an invaluable reference for both scholars and interested non-specialists. Volume one of The Oxford History of Anglicanism examines a period when the nature of Anglicanism was still heavily contested. Rather than merely tracing the emergence of trends that we associate with later Anglicanism, the contributors instead discuss the fluid and contested nature of the Church of England's religious identity in these years and the different claims to what should

count as Anglican orthodoxy After the introduction and narrative chapters explain the historical background individual chapters then analyse different understandings of the early church and church history variant readings of the meaning of the royal supremacy the role of bishops and canon law and cathedrals the very diverse experiences of religion in parishes styles of worship and piety church decoration and Bible usage and the competing claims to Anglican orthodoxy of puritanism avant garde conformity and Laudianism Also analysed are arguments over the Church of England's confessional identity and its links with the foreign Reformed Churches and the alternative models provided by English Protestant activities in Ireland Scotland and North America The reforms of the 1640s and 1650s are included in their own right and the volume concludes that the shape of the Restoration that emerged was far from inevitable or expressive of a settled Anglican identity *The English Civil War* John Adamson, 2008-12-16 John Adamson provides a new synthesis of current research on the political crisis that engulfed England in the 1640s Drawing on new archival findings and challenging current orthodoxies these essays by leading historians offer a variety of original perspectives locating English events firmly within a three kingdoms context

The Irish Civil War and Society G. Foster, 2015-02-18 The Irish Civil War and Society sheds new light on the social currents shaping the Irish Civil War from the politics of respectability behind animosities and discourses to the intersection of social conflicts with political violence to the social dimensions of the war's messy aftermath **The New Revolution** Richard C. Williams PhD., 2014-10-22 The material has been assembled and updated from my doctoral thesis Social Causes of Violent Revolution in Eighty Six Nations Since World War II written in 1978 found on the dissertation shelves of Norlin Library University of Colorado Boulder In this current update I have enlarged the scope of the project to include nonviolent revolutions as well South Africa has been the obvious model here and suggests that the most successful revolutions in the world have indeed been nonviolent There have been a few others as well in the latter part of the 20th and early 21st centuries Examining the causes and developments preceding these revolutions and comparing them with political and social conditions today has convinced me that our own country may be facing some kind of radical social upheaval during the coming century By examining more closely the causes of such upheavals in the world during the 20th century I would hope we could then see how closely current conditions match those early ones Remember that Thomas Jefferson said that this country would need a new revolution every twenty years God forbid we should ever be twenty years without such a rebellion Thomas Jefferson wrote to William Stephons Smith in Paris on November 13 1787 *Historical Dictionary of the British and Irish Civil Wars 1637-1660* Martyn Bennett, 1999-12-22 During the seventeenth century the British Isles were trapped in a 23 year long state of turmoil through civil war continued rebellion and revolutions King Charles I wanted to instill a new uniform religious policy throughout the British Isles and this caused a massive uproar over the King's policies toward the diverse people in his empire the English Irish Scottish and Welsh No person remained unaffected in the kingdom and eventually King Charles I was executed and the entire system of monarchy tumbled into a short lived republic Eventually the monarchy was

restored under King Charles II but the history of the British Isle in the seventeenth century remains forever marked by its tumultuous nature Through a concise historical chronology and comprehensive overview users of the Historical Dictionary of the British and Irish Civil Wars will find an insightful explanation of the people places and events that indelibly shape the United Kingdom s seventeenth century history The cross listed dictionary entries offer a complete explanation of each important aspect of the Civil Wars and their effect on the Kingdom Also includes maps and a bibliography

Revolutions and Reconstructions Van Gosse, David Waldstreicher, 2020-08-28 *Revolutions and Reconstructions* gathers historians of the early republic the Civil War era and African American and political history to consider not whether black people participated in the politics of the nineteenth century but how when and with what lasting effects Collectively its authors insist that historians go beyond questioning how revolutionary the American Revolution was or whether Reconstruction failed and focus instead on how political change initiated by African Americans and their allies constituted the rule in nineteenth century American politics not occasional and cataclysmic exceptions The essays in this groundbreaking collection cover the full range of political activity by black northerners after the Revolution from cultural politics to widespread voting within a political system shaped by the rising power of slaveholders Conceptualizing a new black politics contributors observe requires reorienting American politics away from black white and North South polarities and toward a new focus on migration and local or state structures Other essays focus on the middle decades of the nineteenth century and demonstrate that free black politics not merely the politics of slavery was a disruptive and consequential force in American political development From the perspective of the contributors to this volume formal black politics did not begin in 1865 or with agitation by abolitionists like Frederick Douglass in the 1840s but rather in the Revolutionary era s antislavery and citizenship activism As these essays show revolution emancipation and Reconstruction are not separate eras in U S history but rather linked and ongoing processes that began in the 1770s and continued through the nineteenth century Contributors Christopher James Bonner Kellie Carter Jackson Andrew Diemer Laura F Edwards Van Gosse Sarah L H Gronningsater M Scott Heerman Dale Kretz Padraig Riley Samantha Seeley James M Shinn Jr David Waldstreicher

Green and Blue Damian Shiels, 2025-04-17 *Green and Blue* explores Irish American service in the United States military by analyzing the written correspondence of ordinary rank and file soldiers drawn from across the Union s armed forces Using a vast and largely untapped collection of letters penned by Irish American combatants to their families during the war Shiels explains how these enlisted men navigated their duties from multiple perspectives including how they adapted to and experienced military life how they engaged with their faith and how they interacted with the home front *Green and Blue* offers the most detailed and intimate picture yet of Irish Americans service in the United States military during the Civil War

The Irish and British Wars, 1637-1654 James Scott Wheeler, 2003-10-03 With numerous maps and illustrations James Scott Wheeler connects the strategic and tactical levels of war with political actions and reactions and discusses how Britain and Ireland became

battlegrounds in the war of three kingdoms The various stages of this period of turmoil are clearly demonstrated right through to the execution of Charles I the conquest of Catholic Ireland and the eventual death of the English Republic and provide students of history with an excellent addition to their studies *Sisterhood of the Lost Cause* Jennifer Lynn

Gross,2025-04-01 Historians have thoroughly documented the vast devastation of the Civil War In the attention they have paid to aspects of that destruction however one of the most obvious ramifications appears routinely overlooked Confederate widowhood Jennifer Lynn Gross s *Sisterhood of the Lost Cause* helps rectify that historical omission by supplying a sweeping analysis of women whose husbands perished in the war **The Soviet-Polish War and its Legacy** Peter

Whitewood,2023-09-21 This detailed study traces the history of the Soviet Polish War 1919 20 the first major international clash between the forces of communism and anti communism and the impact this had on Soviet Russia in the years that followed It reflects upon how the Bolsheviks fought not only to defend the fledgling Soviet state but also to bring the revolution to Europe Peter Whitewood shows that while the Red Army s rapid drive to the gates of Warsaw in summer 1920 raised great hopes for world revolution the subsequent collapse of the offensive had a more striking result The Soviet military and political leadership drew the mistaken conclusion that they had not been defeated by the Polish Army but by the forces of the capitalist world Britain and France who were perceived as having directed the war behind the scenes They were taken aback by the strength of the forces of counterrevolution and convinced they had been overcome by the capitalist powers The Soviet Polish War and its Legacy reveals that in the aftermath of the catastrophe at Warsaw Lenin Stalin and other senior Bolsheviks were convinced that another war against Poland and its capitalist backers was inevitable with this perpetual fear of war shaping the evolution of the early Soviet state It also further encouraged the creation of a centralised and repressive one party state and provided a powerful rationale for the breakneck industrialisation of the Soviet Union at the end of the 1920s The Soviet leadership s central preoccupation in the 1930s was Nazi Germany this book convincingly argues that Bolshevik perceptions of Poland and the capitalist world in the decade before were given as much significance and were ultimately crucial to the rise of Stalinism **Engagement with the Past** William Palmer,2021-10-21 Arthur M Schlesinger

Jr John Hope Franklin Daniel Boorstin C Vann Woodward Edmund S Morgan Barbara Tuckman Eric Hobsbawm Hugh Trevor Roper Lawrence Stone aside from carrying the distinction as some of the most successful and well respected historians of the twentieth century these scholars found their lives and careers evolving amid some of the world s pivotal historical moments Dubbed the World War II Generation the twenty two English and American historians chronicled by William Palmer grew up in the aftermath of World War I went to college in the 1930s as the threats of the Great Depression Hitler and Communism loomed over them saw their careers interrupted by World War II and faced the prospect of nuclear annihilation They gained from their experiences the perspective and insight necessary to write definitive histories on topics ranging from slavery to revolution *Engagement with the Past* offers biographies of these individuals in the context of their generation s intellectual

achievement Based upon extensive personal interviews and careful reading of their work Engagement with the Past is a fascinating behind the scenes look at a generation of historians and how they helped record and shape modern history

The Information Animal Alicia Wanless,2025-07-01 Humanity has always craved and feared information Alicia Wanless offers a fresh understanding of the relationship between people technology and knowledge today and throughout history

The American Political Science Review ,1927 American Political Science Review APSR is the longest running publication of the American Political Science Association APSA It features research from all fields of political science and contains an extensive book review section of the discipline The American Historical Review ,1910 **Myth and the Irish State**

John M. Regan,2013-12-03 When we read a history we believe ourselves to be reading cold hard facts of the events that took place and how they occurred But there is no real truthful way to know the approach our historian has taken with the historical sources This book deals with the uncertainty in writing history in the context of Irish history in particular Regan argues in this book that the notion of elision simply ignoring unhelpful evidence threatens Irish history today Regan believes that some historians have ignored unhelpful facts that perhaps do not further their point or perhaps contradict them altogether Each chapter focuses on a period of Irish history that Regan believes to be inconsistent or incomplete in its facts He asks the controversial questions about the period of history such as why do some historians deny or marginalise the British threat of war and re conquest in 1922 why do so many Irish historians describe Michael Collins as a constitutionalist or a democrat when the evidence argues otherwise Was the Irish Civil War really fought between democrats defending the state against dictators attempting its overthrow Did the new state briefly experience a military dictatorship under Collins in 1922 Thinking historically is not about learning history or accepting the past as it is presented to us it is as Regan argues in his thought provoking work about developing the critical skills to interpret history for ourselves **The Mississippi Valley**

Historical Review ,1915 Includes articles and reviews covering all aspects of American history Formerly the Mississippi Valley Historical Review The Booklist ,1912 Gender and the English Revolution Ann Hughes,2011-08-18 From the

most important feminist scholar of early modern Britain in the UK this is a fascinating and unique examination of how the experience of the civil wars in England changed both role and conception of women and men in politics society and culture
