The Minority Report Analysis:

Unchecked And Unbalanced Frederick A.O. Schwarz Jr., Aziz Z. Huq, 2011-05-10 Thirty years after the Church Committee unearthed COINTELPRO and other instances of illicit executive behavior on the domestic and international fronts the Bush administration has elevated the flaws identified by the committee into first principles of government Through a constellation of non public laws and opaque unaccountable institutions the current administration has created a secret presidency run by classified presidential decisions and orders about national security A hyperactive Office of Legal Counsel in the Department of Justice is intent on eliminating checks on presidential power and testing that power s limits Decisions are routinely executed at senior levels within the civilian administration without input from Congress or the federal courts let alone our international allies Secret NSA spying at home is the most recent of these Harsh treatment of detainees extraordinary renditions secret foreign prisons and the newly minted enemy combatant designation have also undermined our values The resulting policies have harmed counterterrorism efforts and produced few tangible results With a partisan Congress predictably reluctant to censure a politically aligned president it is all the more important for citizens themselves to demand disclosure oversight and restraint of sweeping claims of executive power This book is the first step **Civil**
