The Nature Of Interest Groups Section 1 Quiz Key:

The Europeanization of Interest Groups in Malta and Ireland Mario Thomas Vassallo, 2016-04-29 This comparative work examines the political and social context of interest groups in Malta and Ireland two small island states at the periphery of an integrated continent The author explores the impact of the European Union on their civil society s organizations and their gradual transformation at differing speeds and logics of Europeanization

Political Parties and Interest Groups in Norway Elin Haugsgjerd Allern, 2024-10-31 How do today s political parties relate to other organisations Do they prefer rather distant relationships with a wide range of interest groups or have they virtually detached themselves from civil society altogether Scholars seem to agree that traditionally close relationships such as those between social democratic parties and trade unions have grown weaker since the 1960s But to date only limited systematic research has been conducted While parties and interest groups attract a great deal of attention from political scientists the links between them have been largely overlooked This book is an attempt to bridge the gap starting from the party side of the relationship It throws new light on the topic by presenting a theory driven comprehensive study of Norway s seven major political parties and their relationships with interest groups at the beginning of the new millennium Based on original and extensive data including party documents in depth interviews with key players and a survey of national party elites Elin Haugsgjerd Allern paints a nuanced picture of the nature and significance of these relationships and the factors that shape them A major conclusion is that Norway s parties tend to maintain rather distant but wide ranging relationships with interest groups today However some parties still have fairly strong links with their traditional associates and a narrower network of links with other groups Hence Allern also shows that significant differences exist between parties that are apparently exposed to the same social political and institutional environment
