teachers of foreign languages have to face Therefore this paper is going to define the genre of the short story as such to create a basis for the following presentation of the benefits of short stories for the North Rhine Westphalian English Language Classroom In the next step the curricula and guidelines are taken into consideration in order to develop some ideas on how to implement The Machine that Won the War by Isaac Asimov in class These will be integrated into a lesson plan with several activities around the story There are several theoretical works dealing with the lecture of short stories starting with Poe s work mentioned above Allen Walter s The Short Story in English Charles E May s The Short Story The Reality Artifice or Frank Myszor s The Modern Short Story Some articles have been written e g by R diger Ahrens Die bisherige Rolle der Short Story im Englischunterricht der Sekundarstufe II dealing with the use of short stories as a way of teaching literature Most has certainly been written about didactics of English in German classrooms such as Wolfgang Gehring s Englische Fachdidaktik Eine Einf hrung Englisch lernen und lehren Didaktik des Englischunterrichts by Johannes P Timm or Egon Werlich s Praktische Methodik des Fremdsprachenunterrichts mit authentischen Texten Hollywood or History? Scott L. Roberts, Charles J. Elfer, 2021-01-01 The challenges of teaching history are acute where we consider the world history classroom Generalized world history courses are a part of many if not most K 12 curricular frameworks in the United States While United States history tends to dominate the scholarship and conversation there are an equally wide number of middle level and secondary students and teachers engaged in the study of world history in our public schools And the challenges are real In the first place if we are to mark content coverage as a curricular obstacle in the history classroom generally then we must underscore that concern in the world history classroom and for obvious reasons The curricular terrain to choose from is immense and forever expanding dealing with the development of numerous civilizations over millennia and across a wide geographic expanse In addition to curricular concerns world historical topics are inherently farther away from most students lives not just temporally but often geographically and culturally Thus the rationale for the present text Hollywood or History An Inquiry Based Strategy for Using Film to Teach World History The reviews of the first volume Hollywood or History An Inquiry Based Strategy for Using Film to Teach United States History strategy have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioner Classroom utility and teacher practice have remained our primary objectives in developing the Hollywood or History strategy and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history We believe that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching world history The book provides 30 secondary lesson plans grades 6 12 that address nine eras in world history **Interdisciplinary Teaching and Teacher Education** Jiwon Kim, Sandra Zak, 2024-11-05 Through theories and in the current context of schools and curriculum needs Interdisciplinary Teaching and Teacher Education Developing Teacher Competencies for Interdisciplinary Instruction introduces interdisciplinary education
