The Open University A History

Jason McElligott

The Open University A History:

The Open University Daniel Weinbren, 2015-11-01 This historical perspective on The Open University founded in 1969 frames its ethos to be open to people places methods and ideas within the traditions of correspondence courses commercial television adult education the post war social democratic settlement and the Cold War A critical assessment of its engagement with teaching assessment and support for adult learners offers an understanding as to how it came to dominate the market for part time studies It also indicates how as the funding and status of higher education shifted it became a loved brand and a model for universities around the world Drawing on previously ignored or unavailable records personal testimony and recently digitised broadcast teaching materials it recognises the importance of students to the maintenance of the university and places the development of learning and the uses of technology for education over the course of half a century within a wider social and economic perspective

The Open University Walter Perry, 1977 Two audiotape catalogues for courses Peter Leyden presents The Open University for Australia New Zealand and the Pacific Area undated

The Open University Opens Jeremy Tunstall, 2024-04-01 Still going strong today The Open University Britain's national correspondence TV radio University excited much controversy when it first opened and in 1973 awarded its first degrees With its adult part time students its freedom from formal entrance qualifications it deliberately questioned many orthodoxies of higher education at the time Yet the OU differed so much from other universities that few outsiders grasped quite how complex quite how revolutionary quite how downright infuriating the OU was or could be Originally published in 1974 this book gives a first hand account of what the OU was about and what it felt like to be an OU student or lecturer The articles in the collection edited by Jeremy Tunstall himself on the OU staff include contributions from outside observers from OU staff and from OU students This is an unofficial yet informed and lively account of what it felt like in 1974 and what it felt like in the early days to be part of a project so controversial and progressive

The History of Broadcasting in the United Kingdom: Volume V: Competition Asa Briggs, 1995-03-23 Part of a five volume history of the rise and development of broadcasting in the United Kingdom

The 60s, A Very Peculiar History David Arscott, 2012-02-23 The 60s A Very Peculiar History is a nostalgic celebration of those gloriously giddy years Filled with fascinating trivia and quirky facts about the Swinging Sixties David Arscott uniquely explores what made the sixties so different and how the decade has influenced the world today From a timeline of pivotal historical world events to examining London a city steeped in tradition seized by change and liberated by affluence as well as memorable fashions food film and music of the decade Written by an author who was there and does remember it The 60s A Very Peculiar History will delight readers young and old

Policing the Metropolis of Scotland: A History of the Police and Systems of Police in Edinburgh & Edinburghshire, 1770-1833, A

History of the University in Europe: Volume 3, Universities in the Nineteenth and Early Twentieth Centuries (1800-1945) Walter Rüegg, 2004-09-16 This is the third volume of a four part series which covers the development of the

university in Europe east and west from its origins to the present day focusing on a number of major themes viewed from a European perspective The originality of the series lies in its comparative interdisciplinary collaborative and trans national nature It deals also with the content of what was taught at the universities but its main purpose is an appreciation of the role and structures of the universities as seen against a backdrop of changing conditions ideas and values This 2004 volume deals with the modernisation differentiation and expansion of higher education which led to the triumph of modern science changing the relations between universities and national states teachers and students their ambitions and political activities Special attention is focused on the fundamental advances in learning the content of what was taught at the universities

The History of Mathematics: A Source-Based Approach June Barrow-Green,Jeremy Gray,Robin Wilson,2021-12-17 The History of Mathematics A Source Based Approach is a comprehensive history of the development of mathematics This the first volume of the two volume set takes readers from the beginning of counting in prehistory to 1600 and the threshold of the discovery of calculus It is notable for the extensive engagement with original primary and secondary source material The coverage is worldwide and embraces developments including education in Egypt Mesopotamia Greece China India the Islamic world and Europe The emphasis on astronomy and its historical relationship to mathematics is new and the presentation of every topic is informed by the most recent scholarship in the field The two volume set was designed as a textbook for the authors acclaimed year long course at the Open University It is in addition to being an innovative and insightful textbook an invaluable resource for students and scholars of the history of mathematics The authors each among the most distinguished mathematical historians in the world have produced over fifty books and earned scholarly and expository prizes from the major mathematical societies of the English speaking world

The History of Mathematics: A Source-Based Approach, Volume 2 June Barrow-Green,Jeremy Gray,Robin Wilson,2022-05-26 The History of Mathematics A Source Based Approach is a comprehensive history of the development of mathematics This the second volume of a two volume set takes the reader from the invention of the calculus to the beginning of the twentieth century The initial discoverers of calculus are given thorough investigation and special attention is also paid to Newton s Principia The eighteenth century is presented as primarily a period of the development of calculus particularly in differential equations and applications of mathematics Mathematics blossomed in the nineteenth century and the book explores progress in geometry analysis foundations algebra and applied mathematics especially celestial mechanics The approach throughout is markedly historiographic How do we know what we know How do we read the original documents What are the institutions supporting mathematics Who are the people of mathematics The reader learns not only the history of mathematics but also how to think like a historian The two volume set was designed as a textbook for the authors acclaimed year long course at the Open University It is in addition to being an innovative and insightful textbook an invaluable resource for students and scholars of the history of mathematics The authors each among the most distinguished mathematical historians in the world have

produced over fifty books and earned scholarly and expository prizes from the major mathematical societies of the English speaking world *Marxism and the History of Art* Andrew Hemingway,2006-07-20 This book is the first comprehensive introduction to Marxist approaches to art history Although the aesthetic was a crucial part of Marx and Engels s thought they left no full statement on the arts Although there is an abundant scholarship on Marxist approaches to literature the historiography of the visual arts has been largely neglected This book encompasses a range of influential thinkers and historians including William Morris Mikhail Lifshits Frederick Antal Francis Klingender Max Raphael Meyer Schapiro Walter Benjamin Henri Lefebvre and Arnold Hauser It also addresses the heritage of the New Left In the spirit of Marxism the authors interpret the achievements and limitations of Marxist art history in relation to the historical and political circumstances of its production providing an indispensable introduction to contemporary radical practices in the field

Community Care in Perspective J. Welshman,J. Walmsley,2006-10-31 This cohesive collection fills a major gap in medical and social history by offering a detailed account of community provision for so called vulnerable adults in the UK from 1948 2005 It examines key issues such as charity versus rights the role of the market in care provision and the changing construction of social categories *The Routledge International Handbook on Narrative and Life History* Ivor Goodson,Ari Antikainen,Pat Sikes,Molly Andrews,2016-10-04 In recent decades there has been a substantial turn towards narrative and life history study The embrace of narrative and life history work has accompanied the move to postmodernism and post structuralism across a wide range of disciplines sociological studies gender studies cultural studies social history literary theory and most recently psychology Written by leading international scholars from the main contributing perspectives and disciplines The Routledge International Handbook on Narrative and Life History seeks to capture the range and scope as well as the considerable complexity of the field of narrative study and life history work by situating these fields of study within the historical and contemporary context Topics covered include The historical emergences of life history and narrative study Techniques for conducting life history and narrative study Identity and politics Generational history Social and psycho social approaches to narrative history With chapters from expert contributors this volume will prove a comprehensive and authoritative resource to students researchers and educators interested in narrative theory analysis and interpretation

The Perils of Print Culture: Book, Print and Publishing History in Theory and Practice Jason McElligott,2014-09-09 This collection of essays illustrates various pressures and concerns both practical and theoretical related to the study of print culture Procedural difficulties range from doubts about the reliability of digitized resources to concerns with the limiting parameters of national book history *European Police Forces and Law Enforcement in the First World War* Jonas Campion,Laurent López,Guillaume Payen,2019-11-08 This book offers a global history of civilian military and gendarmerie style policing around the First World War Whilst many aspects of the Great War have been revisited in light of the centenary and in spite of the recent growth of modern policing history the role and fate of police forces in the conflict has been largely

forgotten Yet the war affected all European and extra European police forces Despite their diversity all were confronted with transnational factors and forms of disorder and suffered generally from mass conscription During the conflict societies and states were faced with a crisis situation of unprecedented magnitude with mass mechanised killing on the battle field and starvation occupation destruction and in some cases even revolution on the home front Based on a wide geographical and chronological scope from the late nineteenth century to the interwar years this collection of essays explores the policing of European belligerent countries alongside their empires and neutral countries The book s approach crosses traditional boundaries between neutral and belligerent nations centres and peripheries and frontline and rear areas It focuses on the involvement and wartime transformations of these law enforcement forces thus highlighting underlying changes in police organisation identity and practices across this period

The Routledge Companion to Design Studies Penny Sparke,Fiona Fisher,2016-06-17 Since the 1990s in response to dramatic transformations in the worlds of technology and the economy design a once relatively definable discipline complete with a set of sub disciplines has become unrecognizable Consequently design scholars have begun to address new issues themes and sub disciplines such as sustainable design design for well being empathic design design activism design anthropology and many more The Routledge Companion to Design Studies charts this new expanded spectrum and embraces the wide range of scholarship relating to design theoretical practice related and historical that has emerged over the last four decades Comprised of forty three newly commissioned essays the Companion is organized into the following six sections Defining Design Discipline Process Defining Design Objects Spaces Designing Identities Gender Sexuality Age Nation Designing Society Empathy Responsibility Consumption the Everyday Design and Politics Activism Intervention Regulation Designing the World Globalization Transnationalism Translation Contributors include both established and emerging scholars and the essays offer an international scope covering work emanating from and relating to design in the United Kingdom mainland Europe North America Asia Australasia and Africa This comprehensive collection makes an original and significant contribution to the field of Design Studies

Dictionary of the History of Science William F. Bynum,Janet Browne,Roy Porter,2014-07-14 For readers interested in the development of major scientific concepts and the role of science in the western world here is the first conceptually organized historical dictionary of scientific thought The purpose of the dictionary is to illuminate this history by providing a concise single volume reference book of short historical accounts of the important themes ideas and discoveries of science Its conceptual approach differentiates the dictionary from previous reference works such as books of scientific biography and makes it a convenient manual both for the general reader and for scientists interested in the origin of concepts in their own and other scientific fields Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of

the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Rethinking the School Curriculum John White, 2004 In 2000 the school curriculum in England was equipped for the first time in the country's history with an extensive set of aims and purposes In this book leading experts in the teaching of school subjects examine the significance of the new aims for the reform of the curriculum In two general introductory chapters John White discusses the validity of the aims and how they might be realized in schools The remainder of the book focuses on subject specific areas and how these need to be brought into line with the new aims so as to produce a more relevant and enjoyable curriculum experience for pupils including more opportunities for choice of activities The book concludes with suggestions about how government policy on the curriculum should now succeed This portrayal of the school curriculum today and how it could be developed in line with the new aims will be of interest to those studying education with a particular focus on the areas of curriculum assessment school management philosophy of education and the history of education

The Practice of University History Teaching Alan Booth, Paul Hyland, 2000 This work provides a guide to good practice and its development in the teaching and learning of history in universities and colleges It examines recent thinking on the teaching of the subject surveys practices and provides advice to teachers

A Brief History of Credit in UK Higher Education Wayne Turnbull, 2020-03-12 This timely book is the first to address the role of credit in UK higher education It provides an overview and history of the development of credit in the UK HE sector and highlights how credit can be a vehicle for widening access and student choice for curricular flexibility and mobility of learning

Film and History James Chapman, 2017-09-16 Film is the pre eminent mass medium of the modern age It is a valuable source of evidence for the study of both the past and the contemporary world and is a social practice that has affected the lives of millions How can historians engage with this important and influential medium Written for both students and teachers Film and History provides a concise accessible introduction to the use of film in historical enquiry and a summary of the main theoretical debates Charts the development of film history as a subject area and a discipline in its own right Considers different approaches to film history including film as an art form as ideology as a historical source and as a social practice Includes case studies to ground discussion of theories and approaches in specific examples Wide ranging and authoritative Film and History equips students with the methods both to analyse film texts and to understand the place of film in history and culture

Eventually, you will totally discover a further experience and attainment by spending more cash. yet when? realize you admit that you require to get those every needs following having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will lead you to understand even more roughly speaking the globe, experience, some places, behind history, amusement, and a lot more?

It is your completely own time to be in reviewing habit. in the middle of guides you could enjoy now is **The Open University A History** below.
