

Religion

- Evidence for belief in the afterlife first appears in the Paleolithic period, marked by the appearance of burial rituals and ancestor worship.
 - Priests, or shamans, and sanctuary servants appear in prehistory.
- Humans experienced altered states of consciousness and partook in ritual, and ritual was used in their societies to strengthen social bonding and group cohesion.
- During the Neolithic period, there begins to be increased masculinization of the religious deities

Winzeler,2012-04-12 Drawing from ethnographic examples found throughout the world this revised and updated text offers an introduction to what anthropologists know or think about religion how they have studied it and how they have interpreted or explained it since the late nineteenth century Robert Winzeler's balanced consideration of classic topics basic concepts and new developments in the anthropological study of religion moves beyond cultural anthropology and ethnography to gather information from physical anthropology prehistory and archaeology Written as a sophisticated but accessible treatment of the issues Anthropology and Religion is a key text for upper division courses **Astronomy in the Origins of Religion** Cometan,2020-09-15 Official title Do the prehistoric interactions between astronomy and religion form a distinct religious tradition In the dissertation for his Master's of Arts degree from the University of Central Lancashire Cometan introduced and thoroughly explored his theory of the existence of the oldest religious tradition based on astronomical observation which he titles the Astronic tradition or Astronicism In this work which received a Distinction Grade of 87 following its examination Cometan discovers that astronomy and religion were indeed intertwined in prehistoric and ancient times Through archaeological evidence Cometan makes the case for the existence of an Astronic religious tradition stretching back to the Upper Palaeolithic period of the Stone Age some 40 000 years ago Key ideas of Cometan's dissertation work include astromorphism astrolatry astroglyphs astromancy astronomical religion and the theory of an astronomical Urreligion an original or primordial religion *Religion in Human Evolution* Robert N. Bellah,2011-09-15 This ambitious book probes our biological past to discover the kinds of lives that human beings have imagined were worth living Bellah's theory goes deep into cultural and genetic evolution to identify a range of capacities communal dancing storytelling theorizing whose emergence made religious development possible in the first millennium BCE *Origins of Religion, Cognition and Culture* Armin W. Geertz,2014-09-11 Attempts to understand the origins of humanity have raised fundamental questions about the complex relationship between cognition and culture Central to the debates on origins is the role of religion religious ritual and religious experience What came first individual religious ecstatic experiences collective observances of transition situations fear of death ritual competence magical coercion mirror neurons or temporal lobe religiosity Cognitive scientists

are now providing us with important insights on phylogenetic and ontogenetic processes Together with insights from the humanities and social sciences on the origins development and maintenance of complex semiotic social and cultural systems a general picture of what is particularly human about humans could emerge Reflections on the preconditions for symbolic and linguistic competence and practice are now within our grasp Origins of Religion Cognition and Culture puts culture centre stage in the cognitive science of religion *The Origins of Shamanism, Spirit Beliefs, and Religiosity* H. Sidky, 2017-06-21 In *The Origins of Shamanism Spirit Beliefs and Religiosity* H Sidky examines shamanism as an ancient magico religious divinatory medical and psychotherapeutic tradition found in various parts of the world Sidky uses first hand ethnographic fieldwork and scientific theoretical work in archaeology cognitive and evolutionary psychology and neurotheology to explore the origins of shamanism spirit beliefs the evolution of human consciousness and the origins of ritual behavior and religiosity **Plants, Stars and the Origins of Religion** Mary Kilbourne Matossian ,2014 The source records for *Plants Stars and the Origins of Religion* cover the origins of religion in the Middle East and Europe from prehistoric times to the fall of the Roman Empire One of these records was the Phaistos Disk from Crete which may have been intended to serve as a solar calendar and a decipherment of the Phaistos Disk is included within this book Author Mary Kilbourne Matossian has given particular attention to evidence for the possible role of psychoactive plants by people in prehistoric and ancient times At the same time *Plants Stars and the Origins of Religion* explores some prehistoric and ancient beliefs about stars **Introducing Religion** Robert S. Ellwood, Patrick Horn, 2024-08-22 *Introducing Religion* examines the different ways of looking at religion in the twenty first century Providing a broad overview to the discipline of religious studies this new edition continues to introduce students to engaging and contemporary topics such as sociology of religion psychology of religion history of religion religion and art religious ethics popular religion religion and violence Thoroughly updated throughout this sixth edition includes new coverage of current debates and hot topics in the field such as concerns about essentialism in religion the importance of categorization and the role of psychology in religious experience This textbook is fundamental reading for students approaching this subject area for the first time **The Origins of the World's Mythologies** E.J. Michael Witzel, 2012-12-13 This remarkable book is the most ambitious work on mythology since that of the renowned Mircea Eliade who all but single handedly invented the modern study of myth and religion Focusing on the oldest available texts buttressed by data from archeology comparative linguistics and human population genetics Michael Witzel reconstructs a single original African source for our collective myths dating back some 100 000 years Identifying features shared by this Out of Africa mythology and its northern Eurasian offshoots Witzel suggests that these common myths recounted by the communities of the African Eve are the earliest evidence of ancient spirituality Moreover these common features Witzel shows survive today in all major religions Witzel s book is an intellectual hand grenade that will doubtless generate considerable excitement and consternation in the scholarly community Indeed everyone interested in

mythology will want to grapple with Witzel's extraordinary hypothesis about the spirituality of our common ancestors and to understand what it tells us about our modern cultures and the way they are linked at the deepest level The Dawn of Belief D. Bruce Dickson, 1992-07 Hunter gatherers of the Upper Paleolithic period of the late Pleistocene epoch in western Europe left a legacy of cave paintings and material remains that have long fascinated modern man This book draws on theories derived from cultural anthropology and cognitive archaeology to propose a reconstruction of the religious life of those people based on the patterning and provenience of their artifacts Based on the premises that all members of Homo sapiens sapiens share basically similar psychological processes and capabilities and that human culture is patterned the author uses ethnographic analogy inference from material patterns and formal analysis to find in prehistoric imagery clues to the cosmology that lay behind them The resulting book is an intriguing speculation on the nature of paleolithic religion offering scholars a valuable synthesis of anthropological archaeological and sociological research and general readers an accessible account of how our forebears may have regarded the unknown A well written and intellectually rigorous introduction If you are curious about prehistory you will enjoy it Wilson Library Bulletin Most interesting to those scholars interested in seeking materialist foundations or ecological explanations for religious practices American Antiquity A well written and concise account of what has recently been achieved by the investigations of spiritual life of the Earth's most ancient human communities Archiv Orientalni Czechoslovakia Encyclopedia of Religion and Nature Bron Taylor, Jeffrey Kaplan, 2005-01-01 No Marketing Blurb **The Religious History of Remote Antiquity Period and The Three Dynasties (Xia, Shang and Zhou Dynasty)** Li Shi, The book is the volume of The Religious History of Remote Antiquity Period and The Three Dynasties Xia Shang and Zhou Dynasty among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon

after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China's last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China

Evolutionary Processes in the Natural History of Religion Hansjörg Hemminger, 2021-09-22 The study of religion by the humanities and social sciences has become receptive for an evolutionary perspective Some proposals model the evolution of religion in Darwinian terms or construct a synergy between biological and non Darwinian processes The results however have not yet become truly interdisciplinary The biological theory of evolution in form of the Extended Evolutionary Synthesis EES is only sparsely represented in theories published so far by scholars of religion Therefore this book reverses the line of view and asks how their results assort with evolutionary biology How can the subject area religion integrated into behavioral biology How is theory building affected by the asymmetry between the scarce empirical knowledge of prehistoric religion and the body of knowledge about extant and historic religions How does hominin evolution in general relate to the evolution of religion Are there evolutionary pre adaptations Subsequent versions of evolutionary biology from the original Darwinism to EES are used in interdisciplinary constructs Can they be integrated into a comprehensive theory The biological concept most often used is co evolution in form of a gene culture co evolution However the term denotes a process different from biological co evolution Important EES concepts do not appear in present models of religious evolution e.g. neutral evolution evolutionary drift evolutionary constraints etc How to include them into an interdisciplinary approach Does the cognitive science of religion CSR harmonize with behavioral biology and the brain sciences Religion as part of human culture is supported by a complex multi level behavioral system How can it be modeled scientifically The book addresses graduate students and researchers concerned about the scientific study of religion and biologist interested in interdisciplinary theory building in the field

The Encyclopedia of Religion and Nature: K-Z Bron Raymond Taylor, Jeffrey Kaplan, 2005 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity

Ancient African Religions Robert M. Baum, 2024 This book examines the history of religions in Africa from the burial practices of the earliest humans to the rise of centralized theocratic kingdoms like ancient Egypt up to the rise of Islam in the Seventh Century

Feminism in the Study of Religion Darlene Juschka, 2001-08-02 Written by feminist scholars over a period of nearly thirty years the selected readings are wide ranging in content offer a multi ethnic and multi cultural perspective and reflect the work of scholars working within religious studies as well as other disciplines The introductory essays link the sections and are packed with useful information on resources issues and the current debates The book illustrates how debates about feminism within the study of religions have been impacted by broader theoretical discussions and provides evidence that feminist scholars working on religion have made their own contribution to feminist theory

The Origins of Religions Julien Ries, 1994 The Origins of Religions opens with a look at prehistoric man's first steps on the planet then moves on to examine the cultic rituals artistic expression and expanding mythology that developed throughout the Paleolithic and Neolithic epochs

The Evolution of Paleolithic Technologies Steven L. Kuhn, 2020-09-14 The Evolution of Paleolithic Technologies provides a novel perspective on long term trajectories of evolutionary change in Paleolithic tools and tool makers Members of the human lineage have been producing stone tools for more than 3 million years These artefacts provide key evidence for important evolutionary developments in hominin behaviour and cognition Avoiding conventional approaches based on progressive stages of development this book instead examines global trends in six separate dimensions of technological behaviour between 2.6 million and 10 000 years ago Combining these independent trends results in both a broader and a more finely punctuated perspective on key intervals of change in hominin behaviour To draw this picture together the concluding section explores behavioural cognitive and demographic implications of developments in material culture and technological procedures at seven key intervals during the Pleistocene Researchers interested in Paleolithic archaeology will find this book invaluable It will also be of interest to archaeologists researching stone tool technology and to students of human evolution and behavioural change in prehistory
