What Is Man? and Other Philosophical Writings Mark Twain, 1973 The volume includes Mark Twain's previously published philosophical writing Fictional pieces even some which develop arguments contained here are ordinarily excluded as are other works appropriate to different volumes in this edition However Letter from the Recording Angel The Five Boons of Life and Letters from the Earth although they are in a strict sense fictional have been judged more relevant to the present volume than to the volumes of short fiction Things a Scotsman Wants to Know previously unpublished is included by agreement with the editor of The Mark Twain Papers as being especially relevant to themes of this volume Other unpublished items appear as supplements because of their close relation to What Is Man Christian Science and The Turning Point of My Life The two works that break off with unfinished sentences Bible Teaching and Religious Practice and the introductory section of Letters from the Earth were abandoned by the author or else their endings have been lost The order of works in this volume is according to date of publication or for those unpublished during the author's lifetime date of composition For works published during his lifetime dates of first publication appear in roman type below titles for works first published after his death date are in italics and indicate time of composition Anthony Collins The Man and His Works James

O'Higgins, 2012-12-06 This book is the study of a man who caught my interest both because of his own character and of the variety of his activities It is an attempt to see him in his relationship intellectual and literary with the Europe of his day to gauge his position in the development of Seventeenth and Eighteenth century thought to examine the origins of his ideas and their effect and to place him in the social context of the England of the early Eighteenth century The period in which he lived coming at the beginning of the Enlightenment was seminal for our own world and the man himself is of contemporary significance because of the similarity of his outlook if not of his beliefs to that of many today He was at the centre of the major theological controversy of the Seventeenth century and was one of the most contentious figures of his time I would like to acknowledge my obligation to the scholars and librarians who have assisted me in producing this work to Dr E A O Whiteman of Lady Margaret Hall Oxford and to Mrs M Kneale late of the same College to Bodley's librarian Dr R Shackleton to Dr D Rogers Mr D G Neill and to the staff of the Bodleian especially those who work in Duke Humfrey to the librarians of Christ Church All Souls St John's Wadham Exeter and Corpus Christi Colleges Oxford to Mr F G Emmison Miss H E T **The Publishers' Circular and Booksellers' Record**, 1928 Sex, Race, and Class—The Perspective of Winning Selma

James, 2012-05-01 In 1972 Selma James set out a new political perspective Her starting point was the millions of unwaged women who working in the home and on the land were not seen as workers and their struggles viewed as outside of the class struggle Based on her political training in the Johnson Forest Tendency founded by her late husband C L R James on movement experience South and North and on a respectful study of Marx she redefined the working class to include sectors previously dismissed as marginal For James the class struggle presents itself as the conflict between the reproduction and

survival of the human race and the domination of the market with its exploitation wars and ecological devastation She sums up her strategy for change as Invest in Caring not Killing This selection spanning six decades traces the development of this perspective in the course of building an international campaigning network It includes excerpts from the classic *The Power of Women and the Subversion of the Community* which launched the domestic labor debate the exciting *Hookers in the House of the Lord* which describes a church occupation by sex workers an incisive review of the C L R James masterpiece *The Black Jacobins* a reappraisal of the novels of Jean Rhys and of the leadership of Julius Nyerere the groundbreaking *Marx and Feminism* and more The writing is lucid and without jargon The ideas never abstract spring from the experience of organising from trying to make sense of the successes and the setbacks and from the need to find a way forward **The Kingdom of God and the Son of Man** Rudolf Otto,2010-09-24 This work originally published in German as *Reich Gottes und Menschensohn* created an even greater impression and has had to be reckoned with in all subsequent studies of the person and work of Jesus Christ particularly from the point of view of his Messianic self consciousness The first English translation was published in 1938 and the present volume is a reprint of the substantially revised edition of 1943 Translated by Floyd Filson and Bertram Lee Wolff *Routledge Revivals: Man and Technics* (1932) Oswald Spengler,2016-11-10 First published in 1932 this book based on an address delivered in 1931 presents a concise and lucid summary of the philosophy of the author of *The Decline of the West* Oswald Spengler It was his conviction that the technical age the culture of the machine age which man had created in virtue of his unique capacity for individual as well as racial technique had already reached its peak and that the future held only catastrophe He argued it lacked progressive cultural life and instead was dominated by a lust for power and possession The triumph of the machine led to mass regimentation rather than fewer workers and less work spelling the doom of Western civilization **Hebrew-English Edition of the Babylonian Talmud: Nazir, Soṭah** Isidore Epstein,1965 **Herman Melville** Katie McGettigan,2017-11-07 In this imaginative book Katie McGettigan argues that Melville's novels and poetry demonstrate a sustained engagement with the physical social and economic materiality of industrial and commercial forms of print Further she shows that this aesthetics of the material text central both to Melville's stylistic signature and to his innovations in form allows Melville to explore the production of selfhood test the limits of narrative authenticity and question the nature of artistic originality Combining archival research in print and publishing history with close reading McGettigan situates Melville's works alongside advertising materials magazine articles trade manuals and British and American commentary on the literary industry to demonstrate how Melville's literary practice relies on and aestheticizes the specific conditions of literary production in which he worked For Melville the book is a physical object produced by particular technological processes as well as an entity that manifests social and economic values His characters carry books write on them and even sleep on them they also imagine observe and participate in the buying and selling of books Melville employs the book's print paper and binding and its market circulations to construct literary figures

to shape textual form and to create irony and ambiguity Exploring the printed book in Melville's writings brings neglected sections of his poetry and prose to the fore and invites new readings of familiar passages and images These readings encourage a reassessment of Melville's career as shaped by his creative engagements with print rather than his failures in the literary marketplace McGettigan demonstrates that a sustained and deliberate imaginative dialogue with the material text is at the core of Melville's expressive practice and that for Melville the printed book served as a site for imagining the problems and possibilities of modernity Broadview Anthology of British Literature, The. Unemployment and the state in Britain Stephanie Ward, 2016-05-16 Unemployment and the state in Britain offers an important and original contribution to understandings of the 1930s Through a comparative case study of south Wales and the north east of England the book explores the impact of the highly controversial means test the relationship between the unemployed and the government and the nature of some of the largest protests of the interwar period This study will appeal to students and scholars of the depression social movements studies of the unemployed social policy and interwar British society
