The Owl Who Liked Sitting On Caesar:

The Owl Who Liked Sitting on Caesar Martin Windrow, 2014-06-10 This memoir of the relationship between a British military historian and a Tawny Owl is a small masterpiece of animal literature a perfect book The Wall Street Journal Mumble was so much a part of my life in those days that the oddity of our relationship seldom occurred to me and I only thought about it when faced with other people's astonishment When new acquaintances learned that they were talking to a book editor who shared a seventh floor flat in a South London tower block with a Tawny Owl some tended to edge away rather thoughtfully I tried to answer patiently but I found it hard to come up with a short reply to the direct question Yes but why my best answer was simply Why not Martin Windrow was a war historian with little experience with pets when he adopted an owl the size of a cornucopia Adorable but with knife sharp talons Mumble became Windrow's closest if at times unpredictable companion first in a South London flat and later in the more owl friendly Sussex countryside In The Owl Who Liked Sitting on Caesar Windrow recalls with wry humor their finer moments as well as the reactions of incredulous neighbors the awkwardness of buying Mumble unskinned rabbit at Harrods Food Hall and the grievous sense of loss when Mumble nearly escapes Windrow offers a poignant and unforgettable reminiscence of his charmed years with his improbable pet as well as an unexpected education in the paleontology zoology and sociology of owls A memoir of his friendship with this singular creature interwoven with a natural history of her species It is all the more affecting because of its gruff understatement The New York Times Book Review Pure joy Martin Windrow shows us the essence of a wild animal in a story as informative as a scientific paper on the species *Strix aluco* but much more fun to read Elizabeth Marshall Thomas author of *A Million Years with You* Includes photographs and illustrations

Science, Politics, and Friendship in the Works of Thomas Lovell Beddoes Ute Berns,2012 This study reevaluates the work of the scientist and radical poet and dramatist and English exile in Germany Thomas Lovell Beddoes 1803 1849 While his writing has elicited high praise from poets ranging from Robert Browning through Ezra Pound to John Ashbery scholars have frequently neglected it on grounds of its purportedly morbid and opaque eccentricity Countering this scholarly perception this book deftly relocates Beddoes s poetry drama and prose at the centre of Anglo German debates on aesthetics and life science politics and theatre in an early nineteenth century European context Aided by his letters from Germany the book re creates the intercultural discursive universe in which Beddoes easily moves from Shakespeare s plays or the aesthetic experiments of Shelley and his circle to Goethe and to topics debated among Heinrich Heine and the Jungdeutschen from the most advanced contemporary scientific research to the post Napoleonic politics of the German radical students organisations and from Byron Baillie and London s illegitimate theatre to Schiller s and Tieck s highly charged reflections on male male friendship The study combines historicist strategies with theories of performance performativity and visuality as it focuses in particular on Beddoes s major and defining work *Death s Jest* Book first completed in 1829 and published posthumously after much revision in 1850 This study shows how *Death s Jest* Book as both drama and poetry devises complex perspectives on scientifically inspired notions of life and history how it forges a radical vision for post Napoleonic Europe and how it links this vision to a daring conception of desiring gendered selves The book pays close attention to the dialogue Beddoes s writing maintains with Early Modern literature and it highlights the proto modernist features that link his work to that of B chner Grabbe and a European theatre avant garde This innovative study of Beddoes s work cutting across current investigations into politics gender and science in intercultural Romantic Studies should be of interest to scholars and students of British Romantic and Victorian studies as well as of German Vorm rz studies and to students and scholars of drama and theatre as well as Queer studies

The President's Shadow Brad Meltzer,2015-06-16 A severed arm found buried in the White House Rose Garden A lethal message with terrible consequences for the Presidency And a hidden secret in one family s past that will have repercussions for the entire nation

Following *The Inner Circle* and *The Fifth Assassin* 1 bestselling author Brad Meltzer returns with *The President's Shadow*. There are stories no one knows. Hidden stories I find those stories for a living. To most it looks like Beecher White has an ordinary job. A young staffer with the National Archives in Washington D.C. he's responsible for safekeeping the government's most important documents and sometimes its most closely held secrets. But there are a powerful few who know his other role. Beecher is a member of the Culper Ring, a 200-year-old secret society founded by George Washington and charged with protecting the Presidency. Now the current occupant of the White House needs the Culper Ring's help. The alarming discovery of the buried arm has the President's team in a rightful panic. Who buried the arm? How did they get past White House security? And most important, what's the message hidden in the arm's closed fist? Indeed, the puzzle inside has a clear intended recipient and it isn't the President. It's Beecher himself. Beecher's investigation will take him back to one of our country's greatest secrets and point him toward the long carefully hidden truth about the most shocking history of all: family history.
