The Oxford Handbook Of Governance

Donald P. Haider-Markel

The Oxford Handbook Of Governance:

The Oxford Handbook of Governance David Levi-Faur, 2012-03-29 The Oxford Handbook of Governance presents an authoritative and accessible state of the art analysis of the social science literature on governance The volume presents the core concepts and knowledge that have evolved in the study of governance in different levels and arenas of politics and policymaking In doing so it establishes itself as the essential point of reference for all those studying politics society and economics from a governance perspective The volume comprises fifty two chapters from leaders in the field The chapters are organized in nine sections dealing with topics that include governance as the reform of the state democratic governance European governance and global governance

The Oxford Handbook of Governance David Levi-Faur, 2012-03-29 The Oxford Handbook of Governance presents an authoritative and accessible state of the art analysis of the social science literature on governance The volume presents the core concepts and knowledge that have evolved in the study of governance in different levels and arenas of politics and policymaking In doing so it establishes itself as the essential point of reference for all those studying politics society and economics from a governance perspective The volume comprises fifty two chapters from leaders in the field The chapters are organized in nine sections dealing with topics that include governance as the reform of the state democratic governance European governance and global governance

The Oxford Handbook of Governance and Limited Statehood Thomas Risse, Tanja A. Börzel, Anke Draude, 2018-03-08 Unpacking the major debates this Oxford Handbook brings together leading authors of the field to provide a state of the art guide to governance in areas of limited statehood where state authorities lack the capacity to implement and enforce central decision and or to uphold the monopoly over the means of violence While areas of limited statehood can be found everywhere not just in the global South they are neither ungoverned nor ungovernable Rather a variety of actors maintain public order and safety as well as provide public goods and services While external state governors and their interventions in the global South have received special scholarly attention various non state actors from NGOs to business to violent armed groups have emerged that also engage in governance This evidence holds for diverse policy fields and historical cases The Handbook gives a comprehensive picture of the varieties of governance in areas of limited statehood from interdisciplinary perspectives including political science geography history law and economics 29 chapters review the academic scholarship and explore the conditions of effective and legitimate governance in areas of limited statehood as well as its implications for world politics in the twenty first century The authors examine theoretical and methodological approaches as well as historical and spatial dimensions of areas of limited statehood and deal with the various governors as well as their modes of governance They cover a variety of issue areas and explore the implications for the international legal order for normative theory and for policies toward areas of limited statehood

The Oxford Handbook of Governance and Public Management for Social Policy Karen J. Baehler, 2023 Public administration plays an integral role at every stage of social policy creation and execution Program operators

management decisions shape policymakers perceptions of what can and should be accomplished through social programs while public administrators wield considerable power to mobilize tangible and intangible resources and fill gaps in policy designs Furthermore the cumulative effects of public administrators daily activities directly influence outcomes for program participants and may shift policy itself Location also matters to social policy as those same administrators are expected to innovate continuously in response to shifting local and national conditions including changes in budgetary allocations client needs and capacities and public attitudes This Handbook will aim to capture what is being learned across six geographical regions Africa Asia Australasia Europe Latin America and the U S and Canada Specifically each regional section will contain 6 10 chapters canvassing a particular set of promising practices or emerging challenges at the regional or sub regional level in addition to a brief overview written by the section editor The regional sections will be flanked by integrative chapters As a whole the volume contains 65 chapters

The Oxford Handbook of Public Policy Michael Moran, Martin Rein, Robert E. Goodin, 2008-06-13 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines Public policy is the business end of political science It is where theory meets practice in the pursuit of the public good Political scientists approach public policy in myriad ways Some approach the policy process descriptively asking how the need for public intervention comes to be perceived a policy response formulated enacted implemented and all too often subverted perverted altered or abandoned Others approach public policy more prescriptively offering politically informed suggestions for how normatively valued goals can and should be pursued either through particular policies or through alternative processes for making policy Some offer their advice from the Olympian heights of detached academic observers others as engaged scholars cum advocates while still others seek to instil more reflective attitudes among policy practitioners themselves toward their own practices The Oxford Handbook of Public Policy mines all these traditions using an innovative structure that responds to the very latest scholarship Its chapters touch upon institutional and historical sources and analytical methods how policy is made how it is evaluated and how it is constrained In these ways the Handbook shows how the combined wisdom of political science as a whole can be brought to bear on political attempts to improve the human condition

The Oxford Handbook of State and Local Government Donald P. Haider-Markel, 2014-04-03 The Oxford Handbook of State and Local Government is an historic undertaking It contains a wide range of essays that define the important questions in the field evaluate where we are

in answering them and set the direction and terms of discourse for future work The Handbook will have a substantial influence in defining the field for years to come The chapters critically assess both the key works of state and local politics literature and the ways in which the sub field has developed It covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions behavior and policy in the American context Each chapter outlines an agenda for future research The Oxford Handbook of Urban Politics Karen Mossberger,Susan E. Clarke,Peter John,2015-02-15 The Oxford Handbook of Urban Politics is an authoritative volume on an established subject in political science and the academy more generally urban politics and urban studies The editors are all recognized experts and are well connected to the leading scholars in urban politics The handbook covers the major themes that animate the subfield the politics of space and place power and governance urban policy urban social organization citizenship and democratic governance representation and institutions approaches and methodology and the future of urban politics Given the caliber of the editors and proposed contributors the volume sets the intellectual agenda for years to come *The Oxford Handbook of Public Accountability* Mark Bovens,Robert E. Goodin,Thomas Schillemans,2014-05-15 Over the past two decades public accountability has become not only an icon in political managerial and administrative discourse but also the object of much scholarly analysis across a broad range of social and administrative sciences This handbook provides a state of the art overview of recent scholarship on public accountability It collects consolidates and integrates an upsurge of inquiry currently scattered across many disciplines and subdisciplines It provides a one stop shop on the subject not only for academics who study accountability but also for practitioners who are designing adjusting or struggling with mechanisms for accountable governance Drawing on the best scholars in the field from around the world The Oxford Handbook of Public Accountability showcases conceptual and normative as well as the empirical approaches in public accountability studies In addition to giving an overview of scholarly research in a variety of disciplines it takes stock of a wide range of accountability mechanisms and practices across the public private and non profit sectors making this volume a must have for both practitioners and scholars both established and new to the field *The Oxford Handbook of AI Governance* Justin B. Bullock,Yu-Che Chen,Johannes Himmelreich,Valerie M. Hudson,Anton Korinek,Matthew M. Young,Baobao Zhang,2024-02-26 Book abstract The Oxford Handbook of AI Governance examines how artificial intelligence AI interacts with and influences governance systems It also examines how governance systems influence and interact with AI The handbook spans forty nine chapters across nine major sections These sections are 1 Introduction and Overview 2 Value Foundations of AI Governance 3 Developing an AI Governance Regulatory Ecosystem 4 Frameworks and Approaches for AI Governance 5 Assessment and Implementation of AI Governance 6 AI Governance from the Ground Up 7 Economic Dimensions of AI Governance 8 Domestic Policy Applications of AI and 9 International Politics and AI **The Oxford Handbook of Corporate Governance** Mike Wright,Donald Siegel,Kevin Keasey,Igor Filatotchev,2013-03-28 The behavior of managers such as the rewards they obtain

for poor performance the role of boards of directors in monitoring managers and the regulatory framework covering the corporate governance mechanisms that are put in place to ensure managers accountability to shareholder and other stakeholders has been the subject of extensive media and policy scrutiny in light of the financial crisis of the early 2000s. However corporate governance covers a much broader set of issues which requires detailed assessment as a central issue of concern to business and society. Critiques of traditional governance research based on agency theory have noted its under contextualized nature and its inability to compare accurately and explain the diversity of corporate governance arrangements across different institutional contexts. The Oxford Handbook of Corporate Governance aims at closing these theoretical and empirical gaps. It considers corporate governance issues at multiple levels of analysis: the individual manager, firms, institutions, industries and nations, and presents international evidence to reflect the wide variety of perspectives. In analyzing the effects of corporate governance on performance, a variety of indicators are considered such as accounting profit, economic profit, productivity, growth, market share, proxies for environmental and social performance such as diversity and other aspects of corporate social responsibility, and of course share price effects. In addition to providing a high level review and analysis of the existing literature, each chapter develops an agenda for further research on a specific aspect of corporate governance. This Handbook constitutes the definitive source of academic research on corporate governance, synthesizing studies from economics, strategy, international business, organizational behavior, entrepreneurship, business ethics, accounting, finance and law.

The Oxford Handbook of the Quality of Government Andreas Bågenholm, Monika Bauhr, Marcia Grimes, Bo Rothstein, 2021-07-20

Recent research demonstrates that the quality of public institutions is crucial for a number of important environmental, social, economic and political outcomes and thereby human well being. The Quality of Government (QoG) approach directs attention to issues such as impartiality in the exercise of public power, professionalism in public service delivery, effective measures against corruption and meritocracy instead of patronage and nepotism. This Handbook offers a comprehensive state of the art overview of this rapidly expanding research field and also identifies viable avenues for future research. The initial chapters focus on theoretical approaches and debates and the central question of how QoG can be measured. A second set of chapters examines the wealth of empirical research on how QoG relates to democratization, social trust and cohesion, ethnic diversity, happiness and human wellbeing, democratic accountability, economic growth and inequality, political legitimacy, environmental sustainability, gender equality and the outbreak of civil conflicts. The remaining chapters turn to the perennial issue of which contextual factors and policy approaches, national, local and international, have proven successful and not so successful for increasing QoG. The Quality of Government approach both challenges and complements important strands of inquiry in the social sciences. For research about democratization, QoG adds the importance of taking state capacity into account. For economics, the QoG approach shows that in order to produce economic prosperity, markets need to be embedded in institutions with a certain set of qualities. For development studies, QoG

emphasizes that issues relating to corruption are integral to understanding development writ large **The Oxford Handbook of Corporate Law and Governance** Jeffrey N. Gordon, Wolf-Georg Ringe, 2018-04-26 Corporate law and corporate governance have been at the forefront of regulatory activities across the world for several decades now and are subject to increasing public attention following the Global Financial Crisis of 2008 The Oxford Handbook of Corporate Law and Governance provides the global framework necessary to understand the aims and methods of legal research in this field Written by leading scholars from around the world the Handbook contains a rich variety of chapters that provide a comparative and functional overview of corporate governance It opens with the central theoretical approaches and methodologies in corporate law scholarship in Part I before examining core substantive topics in corporate law including shareholder rights takeovers and restructuring and minority rights in Part II Part III focuses on new challenges in the field including conflicts between Western and Asian corporate governance environments the rise of foreign ownership and emerging markets Enforcement issues are covered in Part IV and Part V takes a broader approach examining those areas of law and finance that are interwoven with corporate governance including insolvency taxation and securities law as well as financial regulation The Handbook is a comprehensive interdisciplinary resource placing corporate law and governance in its wider context and is essential reading for scholars practitioners and policymakers in the field

The Oxford Handbook of Business and Government David Coen, Wyn Grant, Graham Wilson, 2010-02-25 Business is one of the major power centres in modern society The state seeks to check and channel that power so as to serve broader public policy objectives However if the way in which business is governed is ineffective or over burdensome it may become more difficult to achieve desired goals such as economic growth or higher levels of employment In a period of international economic crisis the study of how business and government relate to each other in different countries is of more central importance than ever These relationships have been studied from a number of different disciplinary perspectives business studies economics economic history law and political science and all of these are represented in this handbook The first part of the book provides an introduction to the ways in which five different disciplines have approached the study of business and government The second section on the firm and the state looks at how these entities interact in different settings emphasising such phenomena as the global firm and varieties of capitalism The third section examines how business interacts with government in different parts of the world including the United States the EU China Japan and South America The fourth section reviews changing patterns of market governance through a unifying theme of the role of regulation Business government relations can play out in divergent ways in different policy and the fifth section examines the contrasts between different key arenas such as competition policy trade policy training policy and environmental policy The volume provides an authoritative overview with chapters by leading authorities on the current state of knowledge of business government relations but also points to ways in which this work might be developed in the future e g through a political theory of the firm

The Oxford Handbook of Health Care

Management Ewan Ferlie, Kathleen Montgomery, Anne Reff Pedersen, 2016-04-07 This Handbook provides an authoritative overview of current issues and debates in the field of health care management. It contains over twenty chapters from well known and eminent academic authors who were carefully selected for their expertise and asked to provide a broad and critical overview of developments in their particular topic area. The development of an international perspective and body of knowledge is a key feature of the book. The Handbook secondly makes a case for bringing back a social science perspective into the study of the field of health care management. It therefore contains a number of contrasting and theoretically orientated chapters e.g. on institutionalism, critical management studies. This social science based approach is a refreshing alternative to much existing work in this domain and offers a good way into current academic debates in this field. The Handbook thirdly explores a variety of important policy and organizational developments apparent within the current health care field e.g. new organizational forms, growth of management consulting in health care organizations. It therefore explores and comments on major contemporary trends apparent in the practice field.

The Oxford Handbook of Public Choice Roger D. Congleton, Bernard Grofman, Stefan Voigt, 2019 The Oxford Handbook of Public Choice provides a comprehensive overview of the research in economics, political science, law, and sociology that has generated considerable insight into the politics of democratic and authoritarian systems as well as the influence of different institutional frameworks on incentives and outcomes. The result is an improved understanding of public policy, public finance, industrial organization, and macroeconomics as the combination of political and economic analysis shed light on how various interests compete both within a given set of rules of the game and at times to change the rules. These volumes include analytical surveys, syntheses, and general overviews of the many subfields of public choice, focusing on interesting, important, and at times contentious issues. Throughout the focus is on enhancing understanding how political and economic systems act and interact and how they might be improved. Both volumes combine methodological analysis with substantive overviews of key topics. This second volume examines constitutional political economy and also various applications including public policy, international relations, and the study of history as well as methodological and measurement issues. Throughout both volumes, important analytical concepts and tools are discussed, including their application to substantive topics. Readers will gain increased understanding of rational choice and its implications for collective action, various explanations of voting, including economic and expressive, the role of taxation and finance in government dynamics, how trust and persuasion influence political outcomes, and how revolution, coups, and authoritarianism can be explained by the same set of analytical tools as enhance understanding of the various forms of democracy.

Governing through Regulation Eric Windholz, 2017-06-26 Over the past forty years, numerous theoretical advances have been made. From Ayres and Braithwaite's ground breaking work on responsive regulation, we have seen models of smart regulation, regulatory governance, and regulatory capitalism emerge to capture the growing prevalence and importance of regulation in modern liberal Western capitalist societies. Important advances also have

been made in the practice of regulation with regulators evolving from traditional enforcement focussed command and control models to being modern regulators with a suite of diverse and innovative regulatory tools at their disposal The book presents and critically examines these theoretical and practical developments from the perspective of governments who design regulations and the regulators that deploy them In doing so the book examines the various forces and interests that influence and shape the regulatory endeavour and the practical challenges facing governments and regulators when deciding whether and how to regulate This volume is a study of regulation in context in the context of the public policy it is designed to deliver the law that enables shapes and holds it to account and the evolving societal and institutional frameworks within which it takes place Aimed to provide innovative cross disciplinary conceptual frameworks that regulators regulatees those whom regulation is intended to benefit and academics might employ to better understand and undertake the regulatory endeavour This will be of great interest to researchers educators advanced students and practitioners working in the fields of political science public management and administration and public policy

The Oxford Handbook of Public Management Ewan

Ferlie, Laurence E. Lynn, Christopher Pollitt, 2007 The public sector continues to play a strategic role across the world and in the last thirty years there have been major shifts in approaches to its management This text identifies the trends in public management and the effects these have had as well as providing a broad overview to each topic

The Oxford Handbook of Education and Globalization Paola Mattei, Xavier Dumay, Eric Mangez, Jacqueline Behrend, 2023 The Oxford Handbook on Education and Globalization brings together in a unique way leading authors in social theory and in political science and reflects on how these two disciplines deal with the relation between globalization and education The handbook develops a firmer and tighter dialogue between social theory and education research and analyzes the political and institutional factors that shape the adoption of global reforms in education at multiple levels of governance It is a must read for anyone looking for a comprehensive overview of how globalization and education interact to result in distinct and varying outcomes across world regions

Making and Managing Public Policy Karen Johnston Miller, Duncan McTavish, 2013-10-01

Understanding how public policy is made and managed is a key component in studying the disciplines of public management and administration Such are the complexities associated with this topic a deeper understanding is vital to ensure that practising public managers excel in their roles This textbook synthesizes the key theories providing a contemporary understanding of public policy and how it relates to private and other sectors It integrates this with the management and implementation of public policy including outlines of organizations practices and instruments used Pedagogical features include chapter synopses learning objectives boxed international cases and vignettes and further reading suggestions This useful concise textbook will be required reading for public management students and all those interested in public policy

The Oxford Handbook of Financial Regulation Niamh Moloney, Eilís Ferran, Jennifer Payne, 2015-08-27 The financial system and its regulation have undergone exponential growth and dramatic reform over the last thirty years This period has

witnessed major developments in the nature and intensity of financial markets as well as repeated cycles of regulatory reform and development often linked to crisis conditions The recent financial crisis has led to unparalleled interest in financial regulation from policymakers economists legal practitioners and the academic community and has prompted large scale regulatory reform The Oxford Handbook of Financial Regulation is the first comprehensive authoritative and state of the art account of the nature of financial regulation Written by an international team of leading scholars in the field it takes a contextual and comparative approach to examine scholarly policy and regulatory developments in the past three decades The first three parts of the Handbook address the underpinning horizontal themes which arise in financial regulation financial systems and regulation the organization of financial system regulation including regional examples from the EU and the US and the delivery of outcomes and regulatory techniques The final three Parts address the perennial objectives of financial regulation widely regarded as the anchors of financial regulation internationally financial stability market efficiency integrity and transparency and consumer protection The Oxford Handbook of Financial Regulation is an invaluable resource for scholars and students of financial regulation economists policy makers and regulators
