Excerpt from *De Witt's American Chess Manual* Containing Full Instructions for Young Players by an Old Chess Player Also the New Rules of the Game Adopted by the American Chess Association in 1880

IN adding a Chess Manual to the series of DE witt's hand books OF games the publishers have endeavored to occupy a space in current chess literature which has been too long vacant and that is to present a work on Chess which would at once be readably interesting and specially instructive to young chess players while at the same time its low price would place it within the reach of all

The primary fault of the Chess Manuals hitherto published has been that they have either been written too much on the scientific plan if we may so express it or in going to the other extreme have been made so Simple in their wording as to be devoid of interest to the more intelligent class of readers

The happy medium has been the one thing sought for by the editor of this Manual In doing this he has endeavored to combine instructive and interesting reading and added such information in regard to the prominent events of the American chess world as would be appropriate for a Manual of the game

In the first part of the Manual will be found a guide to young beginners in the game from the pen of Mr Charles H Stanley taken from a work on chess published by Mr De Witt some twenty years ago

These chapters cannot well be improved upon and as they were written when that chess veteran was in his prime we present them unchanged
