themselves in different national contexts in both South and North We also asked our authors to pose questions raised by this educational revolution We have included 17 contributions some of the authors analysing particular national situations others drawing questions and observations from their own experiences or taking a searching look at education from the perspective of a practical involvement in social issues or from a background of research into popular arts and traditions African Arts,1967 Rapport Du Groupe de Travail de la Commission Africaine Sur Les Populations/communautés Autochtones African Commission on Human and Peoples' Rights.
