La taupe et le dragon Joël Champetier, 1999 *The Dragon's Eye* Joël Champetier, 2025-10-16 A couple of hundred years in the future there is a struggling Chinese colony on the planet of a double star not too far from Earth One of their suns is the blinding and carcinogenic Dragon's Eye which requires them to cover up and wear hats when it is in the sky The colony has a huge burdensome debt to Earth and there is a question of rebellion and rumor of a possible declaration of independence So a courier is sent in disguised as a native to bring back a highly placed spy or at least his brain so information can be recovered and Earth's interests preserved New China is where the book comes alive We find ourselves in a world of sharply defined characters distinctly themselves with lives outside the plot that nevertheless provides the constant movement of a first class SF adventure The Dragon's Eye is full of surprises and introduces a fine writer to the American audience At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied **Science Fiction from Quebec** Amy J.
