Tax Reform with the 20/20 Tax James C. Tanner,2015-12-02 Many books have been written about tax reform but none offer the pragmatic and understandable approach that youll find in this treatise filled with a nonpartisan set of solutions to fix an antiquated and indecipherable tax system James C Tanner a certified public accountant with more than four decades of experience explores how we can Create a fair and logical tax framework by rethinking income exclusions exemptions deductions credits tax brackets capital gains and other tax alternatives reform tax expenditures including health insurance and medical costs home mortgage and other interest deductions retirement plan deductions charitable donations and capital gains on assets sold and transferred lower the tax rates for most individual and corporate taxpayers while making our US companies more competitive with their foreign counterparts Tanner also outlines how historical decisions and legislative proposals led to our current tax laws under the premise that we cant fix them without understanding why they were created in the first place For those who want to participate in the national debate on federal tax reform it begins with a firm understanding of the system and the practical proposals in Tax Reform with the 20 20 Tax

Agricultural and Agribusiness Law Theodore A. Feitshans,2015-10-05 This introductory textbook provides an overview of the concepts necessary for an understanding of agricultural and agribusiness law The text will help students of land based industries with little or no legal background to appreciate and identify issues which may require referral or consultation with legal counsel Each concise chapter addresses a different legal issue that those employed in agriculture and agribusiness may face and both federal law and representative examples of state law are included In addition to traditional topics such as contracts property law and estate planning the book also covers more contemporary issues such as organic certification animal law genetically engineered crops and food safety

Agricultural law extends beyond those directly engaged in farming to those in agribusiness who provide services and inputs to farmers buy farmers products store or transport products manufacture food products and serve as intermediaries between farmers and consumers The book will therefore also serve as a reference and a guide for those employed in agribusiness as well as agriculture
