

TAX DUE DILIGENCE

- Tax due diligence is a thorough investigation of different types of taxes that affect the target company. There are two types of tax due diligence – Buyer's side and Seller's side.
- A seller's side due diligence is conducted by the target company whereas, buyer's side due diligence is when the buyer wants to recognize the target company's tax exposure

The very basic and starting drill to a tax due diligence is to confirm that the target company is adhering to all government tax compliance.

**TAX
COMPLIANCE**

**TAX ASSETS/
LIABILITIES**

The buyer company needs to do tax liability analysis of the target companies including their subsidiaries, sister concern or any other related company.

This investigation include : Employee Contracts, flexibility of individual employee working, Compensation structure and insurance (other benefits)

EMPLOYEE TAX

TAX CREDIT

There can be two ways in which the target company can have a tax liability in this area. Either it has miscalculated these credits or it has wrongly claimed.

This carries a risk of over calculating taxes, double counting, or not charging taxes where applicable.
