French crime fiction and the Second World War Claire Gorrara, 2017-10-03 This study explores France's preoccupation with memories of the Second World War through an examination of popular culture and one of its more enduring forms crime fiction It examines what such popular narratives have to tell us about past and present perceptions of the war years in France and how they relate to post war debates over memory culture and national identity Starting with narratives of the Resistance in the late 1940s and concluding with contemporary crime fiction for younger readers Gorrara examines popular memories of the Second World War in dialogue with the changing social cultural and political contexts of remembrance in post war France From memories of the persecution of Jews and French collaboration to the legacies of the concentration camps and the figure of the survivor witness all the crime novels discussed grapple with the challenges of what it means to live in the shadow of such a past for generations past present and future

The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the

work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

Re-Imagining the First World War Anna Branach-Kallas, Nelly Strehlau, 2015-09-18 In the Preface to his ground breaking *The Great War and Modern Memory* 1975 Paul Fussell claimed that the dynamics and iconography of the Great War have proved crucial political rhetorical and artistic determinants on subsequent life Forty years after the publication of Fussell's study the contributors to this volume reconsider whether the myth generated by World War I is still part of the fiber of people's lives in English speaking countries What is the place of the First World War in cultural memory today How have the literary means for remembering the war changed since the war Can anything new be learned from the effort to re imagine the First World War after other bloody conflicts of the 20th century A variety of answers to these questions are provided in *Re-Imagining the First World War New Perspectives in Anglophone Literature and Culture* which explores the Great War in British Irish Canadian Australian and post colonial contexts The contributors to this collection write about the war from a literary perspective reinterpreting poetry fiction letters and essays created during or shortly after the war exploring contemporary discourses of commemoration and presenting in depth studies of complex conceptual issues such as gender and citizenship *Re-Imagining the First World War* also includes historical philosophical and sociological investigations of the first industrialised conflict of the 20th century which focus on responses to the Great War in political discourse life writing music and film from the experience of missionaries isolated

during the war in the Arctic and Asia through colonial encounters exploring the role of Irish Chinese and Canadian First Nations soldiers during the war to the representation of war in the world famous series Downton Abbey and the 2013 album released by contemporary Scottish rock singer Fish The variety of themes covered by the essays here not only confirms the significance of the First World War in memory today but also illustrates the necessity of developing new approaches to the first global conflict and of commemorating new victims and agents of war If modes of remembrance have changed with the postmodern ethical shift in historiography and cultural studies which encourages the exploration of other subjectivities in war so far concealed affinities and reverberations are still being discovered on the macro and micro historical levels the Western and other fronts the battlefield and the home front Although it has been a hundred years since the outbreak of hostilities there is a need for increased sensitivity to the tension between commemoration and contestation and to re member re conceptualise and re imagine the Great War **The Penguin Book of First World War Stories** Ann-Marie

of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War
