Armenia Country Gender Assessment Asian Development Bank,2015-07-01 Armenia a country of ancient traditions is shaped by events of the recent past As it left behind

the Soviet legacy of an official gender equality policy there came about a resurgence of patriarchal views and customs At the same time though Armenia saw the growth of diverse women s civil society organizations and the development of a solid legal and policy framework for the protection of equal rights This publication discusses gender equality concerns in Armenia s government economy society and culture It analyzes gender issues in key sectors such as energy transport water supply and municipal services and entrepreneurship Developed in cooperation with the government and other development partners this country gender assessment is envisaged to be a useful guide in developing and implementing policies programs and projects with a social and gender perspective

Inspiring Sustainable Behaviour Oliver Payne,2013-05-07 What is the answer to inspiring sustainable behaviour It starts with a question or nineteen With this simple and inspiring guide you ll learn how to ask for persistent pervasive and near costless change by uncovering our hidden quirks judgmental biases and apparent irrationalities The only change you ll need to make is how you ask Businesses larger or small will soon have to cut costs and cut carbon irrespective of the products they sell or the services they perform National government has structural policy and legislative needs and local government has implementation and documentation needs Indeed the new UK government coalition s approach to transport is simply cut costs and cut carbon Set against this there is an increasing sense that popular culture and popular science are congregating around a desire to understand who we are and how we behave The recent rise of behavioural economics is a testament to this as well as the relevance of environmental psychology Allied to this is a sense that big business is forging ahead with plans to account for and mitigate carbon emissions without the marketing and communications departments being able to help or communicate this effectively either through their own efforts or those of their communication agencies The 19 Different Ways to Ask for Change offer a solution to all these needs by pulling them together and showing that changing how we ask is near costless but its effects could be near priceless This book shows that simplification isn t always the solution an action can be the most successful question and a default answer can be the most important It explores why short term memory tasks change our behaviour how singing roads regulate speed and that commitment gaps change outcomes how our worry profile is the same as an Argentinean farmer s why knowledge of what kills you is irrelevant but asking about behaviour that kills is deadly and what a chimpanzee s tea party tells us about the effect of ownership on decision making This timely book will be of great value to scholars and practitioners whose work relates to reducing carbon emissions with a particular emphasis on environmental psychology behavioural economics project design and psychology It offers practical solutions for policy makers and professionals in marketing and communications departments
