American Higher Education in the Twenty-First Century Michael N. Bastedo, Philip G. Altbach, Patricia J. Gumport, 2023-01-31 First three editions published with Philip G Altbach as the principal editor [Accountability in Higher Education: Navigating Current Issues and Trends](#) Singleton, Topeka Small, 2025-03-28 Accountability in higher education has become a critical issue as higher education institutions face scrutiny over student outcomes financial transparency and the value of a college degree As the cost of tuition is on the rise and student debt growing the concerns on equitability and the concerns of student engagement have left many in the public to lose trust in higher education From government regulations to accreditation standards and data driven assessment models accountability measures are evolving to ensure that higher education remains both effective and accessible As the public become more distrustful of higher education discussing the problems issues is effective in seeking change Accountability in Higher Education Navigating Current Issues and Trends explores the current trends and issues with accountability in higher education It discusses how accountability in higher education is essential and is the most impactful This book covers topics such as accountability diversity and inclusion and educational training and is a useful resource higher education professionals who seek to know more about navigating the landscape of accountability in higher education **Normalizing an American Right to Health** Christina S. Ho, 2023 Normalizing an American Right to Health argues against the conventional wisdom that a U S right to health is out of reach It shows that the necessary change is not extraordinary but familiar and that the law has already laid considerable groundwork in ordinary statutes and case law The book moves from the descriptive task of showing where a right to health already exists in our legal corpus to the prescriptive goal of showing how we could feasibly and meaningfully expand the right through ordinary policies that are widely used in other domains including impact assessments and state sponsored reinsurance

Reexamining the Federal Role in Higher Education Rebecca S. Natow, 2022 This book provides a comprehensive

description of the federal government's relationship with higher education and how that relationship became so expansive and indispensable over time. Drawing from constitutional law, social science research, federal policy documents, and original interviews with key policy insiders, the author explores the U.S. government's role in regulating financing and otherwise influencing higher education. Natow analyzes how the government's role has evolved over time, the activities of specific governmental branches and agencies that affect higher education, the nature of the government's role in higher education today, and prospects for the future of federal involvement in higher education. Chapters examine the politics and practices that shape policies affecting nondiscrimination and civil rights, student financial aid, educational quality, and student success, campus crime, research and development, intellectual property, student privacy, and more.

Journalism at Historically Black Colleges and Universities Jerry Crawford II, 2022-03-17 Historically Black Colleges and Universities (HBCUs) are facing challenges to their continued existence on several fronts. One is fiscally, as federal funding for education has been cut and the responsibility for paying for higher education has been levied on students and parents. Another challenge is the amount of endowment dollars available to them, and lastly, there are questions today as to if HBCUs are still needed in a society that has allowed African Americans to attend Predominantly White Institutions (PWIs). The third are the challenges placed on institutions as a whole and specific departments in attaining and maintaining accreditation. Finally, how are administrators handling these challenges during the pandemic and their own health and well-being? This book explores journalism accreditation at HBCUs and is informed by many years of research into how journalism units have acquired and lost accreditation. The book also examines Hispanic Serving Institutions (HSIs) and Tribal Colleges and Universities (TCUs) and how they are navigating accreditation and financial challenges. The book will be of interest to faculty, students, scholars, and administrators of journalism studies.

American Public Policy Dennis W. Johnson, 2022-09-15 This is a sweeping narrative of American domestic public policy, its triumphs, struggles, and failures over the past 120 years. In a larger sense, it is a reflection on how the United States has grown and matured, faced challenges and opportunities, and how its federal leaders and policymakers have responded or failed to confront pressing problems. Moreover, *American Public Policy* addresses the hurdles and challenges that still lie ahead. Four critical questions are posed and answered: First, what were the most significant adversities endured by the American people? Second, what were the landmark domestic policies crafted by the president, enacted by Congress, or issued in Supreme Court decisions? Third, what did they fail to do? Finally, how well have federal policymakers met the key challenges facing America: income inequality, racism, financial crises, terrorist attacks, climate change, gun violence, and other pressures? And what do we still need to do? This book reaches out to students of public policy, American government, U.S. history, and contemporary affairs, as well as to citizens, journalists, and policy practitioners.

The Role of Leaders and Actors in Academy-Business Partnerships: Issues of Risk, Trust, Power, Ethics, and Cooperation Clevenger, Morgan R., Kretovics, Mark, Watts, Jessica Shepard, 2024-09-17 In academic business partnerships

many challenges plague both sides of the equation From navigating complex power dynamics to ensuring ethical conduct managing risk and fostering trust these collaborations often seem to walk a tightrope without a safety net The critical actors involved such as university leaders corporate executives and government policymakers often struggle to strike the delicate balance required for success It is a world where mishaps are as common as best practices and the potential for growth and innovation remains untapped due to these hurdles The Role of Leaders and Actors in Academy Business Partnerships Issues of Risk Trust Power Ethics and Cooperation emerge as the guiding light in this labyrinthine journey This book does not just highlight the issues it presents concrete solutions By offering a comprehensive exploration of the roles and responsibilities of key players from university presidents to corporate executives it equips readers with the knowledge and tools needed to navigate the intricate dynamics of these partnerships successfully With real world examples of best practices and the cautionary tales of the dark side of leadership this book empowers academic scholars and corporate leaders alike to make informed decisions and forge collaborations that truly benefit both sides *Collaborative Thinking* Sarah K.A.

Comparative Higher Education Politics Jens Jungblut,Martin Maltais,Erik C. Ness,Deanna Rexe,2023-05-12 This volume provides an overview of the state of the art of research on the politics of higher education policy in Canada the US and Western Europe Each thematic chapter combines an extensive literature review with original empirical work that further advances our understanding of policymaking dynamics in higher education The book covers five key aspects of policymaking namely the politics of governance as well as funding reforms the role of interest groups policy diffusion and policy framing These aspects are explored using a unique comparative design that combines comparisons within as well as between regions and among the five key aspects of policymaking The conceptual framework is anchored in approaches from institutional theory namely sociological and historical institutionalism This rare book coherently focuses on

the same critical challenges that higher education faces in a changing global and national environment. These include vital governance and finance issues and how these are framed and contested by different organizations and interest groups as well as state actors. Within a broad institutionalist framework that reflects the tensions between historical university and national legacies on the one hand and regional and global influences on the other, the authors focus on policymaking in Western Europe, Canada, and the US. This is an engaging and creative endeavor, a must read for scholars and policymakers alike. Francisco O Ramirez, Graduate School of Education, Stanford University. This is a real achievement that will contribute to the development of research in politics of higher education, policy, finance, and economic development. It is timely in an era when higher learning is increasingly salient to national policy, interest groups, and supranational bodies such as the EU. The focus on Canada, the US, and Europe frames a comparative approach to a competitive higher educational policy arena that has not received systematic study. Sheila Slaughter, Louise McBee, Institute of Higher Education, University of Georgia. This fills a gaping hole in research on the politics of higher education. In bringing together research perspectives from governance studies with comparative public policy as well as scholars from Europe and Northern America, this volume will serve as an important reference point for a rapidly growing research field. The exceptionally high quality of editorship is documented by the fact that the chapters are convincingly subsumed under five sub-themes. In short, a must read for any researcher and student interested in understanding the political foundations of higher education. Marius R. Bussemeyer, Department of Politics and Public Administration, University of Konstanz.
