The House of the Spirits Isabel Allende, 2005-04-19 Chilean writer Isabel Allende's classic novel is both a richly symbolic family saga and the riveting story of an unnamed Latin American country's turbulent history In a triumph of magic realism Allende constructs a spirit-ridden world and fills it with colorful and all too human inhabitants The Trueba family's passions struggles and secrets span three generations and a century of violent social change culminating in a crisis that brings the proud and tyrannical patriarch and his beloved granddaughter to opposite sides of the barricades Against a backdrop of revolution and counterrevolution Allende brings to life a family whose private bonds of love and hatred are more complex and enduring than the political allegiances that set them at odds The House of the Spirits not only brings another nation's history thrillingly to life but also makes its people's joys and anguishes wholly our own

Faris,2004 Ordinary Enchantments investigates magical realism as the most important trend in contemporary international fiction defines its characteristics and narrative techniques and proposes a new theory to explain its significance In the most comprehensive critical treatment of this literary mode to date Wendy B Faris discusses a rich array of examples from magical realist novels around the world including the work not only of Latin American writers like Gabriel Garcia Marquez but also of authors like Salman Rushdie Gunter Grass Toni Morrison and Ben Okri Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary magical realism destabilizes the dominant form of realism based on empirical definitions of reality gives it visionary power and thus constitutes what might be called a remystification of narrative in the West Noting the radical narrative heterogeneity of magical realism the author compares its cultural role to that of traditional shamanic performance which joins the worlds of daily life and that of the spirits Because of that capacity to bridge different worlds magical realism has served as an effective decolonizing agent providing the ground for marginal voices submerged traditions and emergent literatures to develop and create masterpieces At the same time this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within In addition to describing what many consider to be the progressive cultural work of magical realism Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity And finally drawing on the narrative innovations and cultural scenarios that magical realism enacts she extends those principles toward issues of gender and the possibility of a female element within magical realism **The Labyrinth** Harold Bloom,Blake Hobby,2009 In literature labyrinths can represent
