government and put money in our pockets We must return to the fundamentals of American politics small not big government Less spending not more The first step is to more narrowly define the parties platforms away from needlessly divisive social issues and refocus the political discussion on that really matters economic policies that create jobs In the smart tell it like it is style that has made her popular with Democrats and Republicans like Caruso Cabrera outlines forward thinking free market solutions for health care education and immigration These ideas will stop our growing deficit boost our competitive capital and strengthen our dollar because an economy that is flexible and free of government interference can grow faster and get the country out of its current malaise It s not too late to fix our nation restore our credibility and rebuild our political system with the tenets on which it was founded fiscal conservatism and social liberty Our future is counting on it
