Writing Science before the Greeks Rita Watson,Wayne Horowitz,2011-03-21 The beginnings of written science have long been associated with classical Greece Yet in ancient Mesopotamia highly sophisticated scientific works in cuneiform script were in active use while Greek civilization flourished in the West The subject of this volume is the astronomical series MUL.APIN which can be dated to the seventh century BCE and which represents the crowning achievement of traditional Mesopotamian observational astronomy Writing Science before the Greeks explores this early text from the perspective of modern cognitive science in an effort to articulate the processes underlying its composition The analysis suggests that

writing itself through the cumulative recording of observations played a role in the evolution of scientific thought All in all the authors should be congratulated for this groundbreaking study Apart from significant new insights into MUL APIN it has opened up a new avenue for research on ancient scientific texts that is likely to yield further interesting results particularly if the cognitive analysis is combined with other approaches Mathieu Ossendrijver Humboldt University The Total Skywatcher's Manual Astronomical Society of the Pacific,2019-02-12 Star charts step by step projects photos and more The Total Skywatcher s Manual is a fun book but more importantly it s a useful book Sky Telescope With fully illustrated star charts gorgeous astrophotography and step by step project instruction this is the only guide you need to navigate the night and day sky Learn about the phases of the moon how to conduct your own deep sky observations how the universe is expanding our search for life on other planets meteors vs meteorites sunspots and solar flares best eclipse viewing techniques everything you need to know to appreciate the wonder of our universe The Total Skywatcher s Manual will help stargazers comet spotters and planet seekers Choose the best telescope Identify constellations and objects in the night sky Search for extraterrestrial phenomena Plan star parties Capture beautiful space imagery and much more For well over a century the Astronomical Society of the Pacific has provided resources tools and information to astronomy enthusiasts including amateur astronomers families and science educators Now they draw on their wide ranging expertise to guide you through the skies **Billy the Goat's Tales of Two Towns by L. D. R.** Luther David Ralph,2011-08-16 Between the years 1949 and 1976 Luther David Ralph son brother husband father grandfather farmer carpenter storyteller journalist wrote over 800 columns entitled Billy the Goat s Tales of Two Towns By L D R for the GOODLETTSVILLE GAZETTE In his first column he wrote This column will start in Shackle Island TN and eventually wind up in Goodlettsville TN we will endeavor to mingle news of the past as handed down for posterity with amusing events of today During those 27 years he did write about current events memories of life on Long Hollow stories of adventures in The West and occasionally family events Mr Ralph s reminiscences and observations provide a glimpse into the life in rural Sumner County Tennessee between the towns Goodlettsville actually just over the line in Davidson County TN and Shackle Island along the Long Hollow he called home for the nine decades of his life 1890 1979 Granddaughter Annelle Ralph Hawkins Huggins has located many of the original columns saved by family members and readers over the years and additional ones in the holdings of the Tennessee State Library and Archives She has chosen 91 representative columns for this compilation Ms Huggins has been an academic librarian for 41 years and currently serves as Associate Professor Associate Dean of University Libraries at the University of Memphis She continues to seek additional writings by her grandfather and to transcribe all findings into electronic format to be handed down for posterity *Night Sky* Mark R. Chartrand,2001-04-14 This simple to use illustrated guide to the stars features information on stars constellations and more plus photos in full color and black and white **At the Crossroads of Greco-Roman History, Culture, and Religion** Sinclair W. The Mythology of the Night Sky David E. Falkner, 2011-08-28 The Mythology of the Night Sky is intended primarily for amateur astronomers who would like to know the mythology behind the names of constellations and planets It deals with the 48 constellations identified by the ancient Greek astronomer Ptolemy as well as all the planets of our solar system and their moons which are named after Roman gods To assist practical observers the book gives the location and description of each constellation including named stars and deep sky objects Readers are encouraged to observe and image the constellations for themselves and there is a lot of practical information in this book to help them along the way In addition to providing a detailed and mostly Greek mythology of the constellations and the vast soap opera that was part of the Ancient Greek pantheon this book also addresses the planets of the Solar System which are named after the Roman not Greek gods

Lift Up Your Eyes on High James Nickel, 1999-12 This astronomy text written from a Christian perspective helps high school students to unlock the mysteries and wonders of the stars Helpful review questions and suggested essays are also provided in the text Grades 9 12

An Eleventh-Century Egyptian Guide to the Universe, 2013-10-28 Acquired by the Bodleian Library in 2002 the Book of Curiosities is now recognized as one of the most important discoveries in the history of cartography in recent decades This eleventh century Arabic treatise composed in Egypt under the Fatimid caliphs is a detailed account of the heavens and the Earth illustrated by an unparalleled series of maps and astronomical diagrams With topics ranging from comets to the island of Sicily from lunar mansions to the sources of the Nile it represents the extent of geographical astronomical and astrological knowledge of the time This authoritative edition and translation accompanied by a colour facsimile reproduction opens a unique window onto the worldview of medieval Islam An extensive glossary of star names and seven indices on birds animals and other items have been added for easy reference
