The Wilde Legacy Eiléan Ní Chuilleanáin,2003 To commemorate the 100th anniversary of the death of Oscar Wilde Trinity College s School of English held a conference on the Wilde family This book is the proceedings of the conference The Wilde family was prominent sometimes sensationally so in the literary scholarly political and professional milieus of Victorian Dublin and then London D Coakley sketches in the social and professional background of the family Peter Froggat and Michael Ryan assess the enduring value of Sir William Wilde s work as medical historian and statistician and as archaeologist and antiquarian Eil an N Chuillean in looks at the role of Oscar s mother Speranza as an ancestor figure for a contemporary woman writer Lucy McDiarmid and Alan Sinfield write on Wilde s trials and on the scandalous reverberations of his name in the 20th century Robert Dunbar places Oscar Wilde s stories for children in their Victorian context while Mary Elizabeth Burke Kennedy considers their trans formation into the successful theatre adaptation The Star Child Wilde s plays are the subject of a lively discussion between distinguished Irish play wrights and producers Marina Carr Thomas Kilroy Michael Colgan and Patrick Mason

TITANIC LEGACY Paul Heyer,1995-10-30 This is the first book to deal exclusively with the influence and meaning of what media historian Paul Heyer calls our century s first collective nightmare Using contemporary as well as

archival sources he explores a series of intriguing questions Why has the TITANIC disaster affected the way we think about ourselves and our technology How has the media made it into a morality play of mythic dimensions What impact has that story had on the development of 20th century communications This timely and compelling book pays homage to the TITANIC's fateful voyage by attempting to explain not why she struck an iceberg on a cold April night in 1912 but what is surely her greatest enigma the hold the event still has over us Heyer assesses the impact of the TITANIC disaster on the 20th century by exploring the relationship between the event and a variety of media from 1912 to the present The role of the media in the disaster begins with the TITANIC's distress call Only a partial success it resulted in a concerted plea for more wireless regulation Subsequent newspaper coverage called the sinking the story of the century The mad scramble for information led to the use of every possible journalistic technique ethical or otherwise In his analysis Heyer puts particular emphasis on the New York Times which became the paper of record and achieved international prominence for its accurate and sometimes controversial reporting As soon as press coverage subsided the TITANIC tragedy resurfaced in literature and film It has gone on to become one of the most enduring myths in 20th century popular culture Heyer examines this phenomenon and shows us how and why following the discovery of the wreck 1985 and the Challenger disaster 1986 our obsession with the TITANIC has been greater than at any other time since 1912 This is a unique and provocative book that will appeal to readers interested in popular history media studies and American studies Supreme Court , The Mapmakers' Legacy Joan Dawson, 2007 This book is a follow up to Joan Dawson's earlier book *The Mapmaker's Eye* which shows how early maps of Nova Scotia reflect the province's establishment under first French then English colonial rule The present book looks at Nova Scotia's continuing development in the nineteenth century first as a British colony then as a member of Confederation as reflected in the many different types of maps made for various purposes during the century Any map or history enthusiast will be fascinated by Nova Scotia's evolution from a colony of military outposts and subsistence farmers to an increasingly industrial society Early in the nineteenth century maps reflected the settlement that was still taking place the roads being built to link the settlements the increasingly sophisticated defenses that were being constructed and the attempts to identify the resources on which development would depend In the second half of the century maps began to change depicting the development of industries the establishment of railways and shipping lines and the growth of towns where enterprising manufacturers and merchants were setting up businesses Throughout *The Mapmakers' Legacy* Dawson examines and explains the many maps that illustrate this evolution This is a unique and captivating account of Nova Scotian cartographic history
