*The Trouble with Jokes* Nick Butler, 2023-12-18 We are accustomed to seeing humour as a diversion from the serious side of life but humour also permeates some of the most troubling political developments in recent years From the resurgence of white nationalism to the erosion of democratic norms jokes force feed us objectionable ideologies while we gasp and splutter at all the side splitting shenanigans This book explores the relationship between humour and offensiveness in contemporary society Drawing on examples from philosophical thinkers and popular culture it invites readers to consider the dark side of humour Weaving together cultural analysis political discussion and philosophical reflection the book provides an antidote to positive thinking about laughter and a roadmap for navigating different types of offensive humour *The Joke Is on Us* Julie A. Webber, 2018-12-11 This edited volume brings together scholars of comedy to assess how political comedy encounters neoliberal themes in contemporary media Central to this task is the notion of genre under neoliberal conditions where market logics motivate most actions genre becomes mixed Once stable discreet categories such as comedy horror drama and news and entertainment have become blurred so as to be indistinguishable The classic modern paradigm of comedy tragedy no longer holds if it ever did Moreover as politics becomes more economic and less moral or normative under neoliberalism we are able to see new resistance to comedic genres that support neoliberal strategies to hide racial and gender injustice such as unlaughter ambiguity and anti comedy There is also an increasing interest with comedy as a form of entertainment on the political right following both Brexit in the UK and the election of Trump in the U S Several essays confront this conservative comedy and place it in context of the larger humor history of these debates over free speech and political correctness For comedians too entry into popular media now follows the familiar neoliberal script of the celebration of self help with the increasing admonishment of those who fail to win in market terms Laughter plays an important role in shaming and valorizing often at the same time the precarious subject in the aftermath of global recession Doubling down on austerity self help policies and equivocation in the face of extremist challenges right and left politics foils the critical comedian s attempt to satirize and parody its object Characterized by ambiguity mixed genre and the increasing use of anti humor political comedy mirrors the social and political world it mocks parodies and celebrates often with lackluster results suggesting that the joke might be on us as audiences *Every Screen on the Planet* Emily Baker-White, 2025-09-30 The story of the most effective attention algorithm ever invented and the superpower struggle to control it *Every Screen on the Planet* is the first major book on one of the most dramatic business stories of our time Touching on politics finance data and technology the struggle over TikTok has enormous implications for our information landscape and the technological cold war between the United States and China Emily Baker White s engrossing narrative charts TikTok s rise from obscurity into the world s most valuable startup led by its ambitious founder Zhang Yiming arguably the father of the modern recommendation algorithm Zhang s products reshaped the global internet from a place where you searched for information to one where

information came to you TikTok seemed to know its users in an almost spooky way provoking wonder and delight People were hooked We intend to become ubiquitous a new hire training video said to put TikTok on every screen on the planet But virtually everything about TikTok s users their interests locations and even their unspoken desires was accessible to staff in Beijing After Baker White a Harvard trained lawyer and investigative reporter revealed that Chinese engineers could access Americans private information a team of employees used the app to track her location and attempt to expose whistleblowers This incident triggered an ongoing criminal investigation and escalated the US government s fight against Chinese tech TikTok was the first Chinese app to become a US juggernaut and lawmakers soon recognized its potential for surveillance and propaganda and the threat it might pose in the hands of their rivals Yet even as hawks in Congress gained support to ban the app the White House was secretly negotiating for unprecedented control over its information stream In 2025 when President Donald Trump declined to enforce the so called ban law TikTok seemed to complete a miraculous corporate escape It retained its influence profits and power but now operated at the pleasure of two strongmen China s Xi Jinping and Trump himself

Expressive Networks Matthew Kilbane,2025-06-10 Expressive Networks convenes an urgent conversation on digital media and the social life of contemporary poetry Tracing how poems circulate through online spaces and how capitalized platforms have come to pattern the reading and writing of poetry contributors emphasize both the expressivist cast of digital literary culture and the deep running ambivalence that characterizes aesthetic and critical responses to platformed cultural production The volume features chapters on Pan African spoken word programs Singaporean Facebook groups decolonial hemispheric networks and Japanese media critical poetries as well as platforms such as Twitter X Instagram and Amazon Though contributors write from a variety of methodological positions and address themselves to a range of archives they share the primary conviction that the impact of Web 2 0 on literary practice is far reaching far from self evident and far more variegated and unpredictable than easy summations of social media s influence suggest Expressive Networks asks after poetry s present and future by examining what poems themselves express about the social make up of networked platforms Edited by Matthew

*Bearing Witness While Black* Allissa V. Richardson, 2020-05-18. Modern black citizen journalists armed with little more than smartphones and a speedy WIFI connection are challenging longstanding narratives of race power and privilege in the United States. This book investigates how anti-police brutality activists leverage the affordances of mobile and social media to report original news within the contemporary social justice beat. Through semi-structured interviews and a descriptive analysis of the activists' social media, Allissa V. Richardson investigates the journalistic roles that activists perform, the types of stories that they produce, and the relationships that they have formed with their audiences.

*Running Out of Time (B&W Interior)* Robert Prah, Jr., 2022-06-15. *Running Out of Time: Chasing Red, White and Blue* B & W Interior By Robert Prah Jr. Originally created for his daughter to detail his run for public office, *Running Out of Time: Chasing Red, White and Blue* chronicles this pursuit by Robert Prah Jr. during a very challenging time in a district that has been historically blue forever. It details his personal story of running for the Pennsylvania state legislature and all of the challenges that he faced, especially from previous relationships and social media. It talks about being the underdog running against a lifelong Democrat turned Republican where, according to many polls, Prah was favored to win the special election. The author also highlights how several committee members, past candidates, and elected officials have changed their political affiliation in recent years. This story is interesting in the sense that Prah ran in three elections: Special Election in March 2020, Primary in June 2020, General in November 2020, all during a global pandemic. It shares the ups and downs of running for office and how the pandemic and social media impacted the outcome of many races in November 2020. The author hopes that readers take away that social media has had an impact on our lives, both positive and negative, and especially in politics and elections. We tend to not look at candidates individually but rather as a D or an R. We need to do a better job of evaluating candidates and asking questions rather than what we see on social media.
