Written on the Body Jane Caplan, 2021-10-12. Despite the social sciences' growing fascination with tattooing and the immense popularity of tattoos themselves, the practice has not left much of a historical record. And until very recently, there was no good context for writing a serious history of tattooing in the West. This collection exposes for the first time the richness of the tattoo's European and American history from antiquity to the present day. In the process, it rescues tattoos from their stereotypical and sensationalized association with criminality. The tattoo has long hovered in a space between the cosmetic and the punitive. Throughout its history, the status of the tattoo has been complicated by its dual association with slavery and penal practices on the one hand and exotic or forbidden sexuality on the other. The tattoo appears often as an involuntary stigma, sometimes as a self-imposed marker of identity and occasionally as a beautiful corporal decoration. This volume analyzes the tattoo's fluctuating, often uncomfortable position from multiple angles. Individual chapters explore fascinating segments of its history from the metaphorical meanings of tattooing in Celtic society to the class-related commodification of the body in Victorian Britain, from tattooed entertainers in Germany to tattooing and piercing as self-expression in the contemporary United States. But they also accumulate to form an expansive, textured view of permanent bodily modification in the West. By combining empirical history, powerful cultural analysis, and a highly readable style, this volume both draws on and propels the ongoing effort to write a meaningful cultural history of the body. The contributors, representing several disciplines, have all conducted extensive original research into the Western tattoo. Together, they have produced an unrivalled account of its history. They are, in addition to the editor, Clare Anderson, Susan Benson, James Bradley, Ian Duffield, Juliet Fleming, Alan Govenar, Harriet Guest, Mark Gustafson, C. P. Jones, Charles MacQuarrie, Hamish Maxwell, Stewart, Stephan Oettermann, Jennipher A. Rosecrans, and Abby Schrader.

Memory's Daughters Susan Stabile, 2018-09-05. A renowned literary coterie in eighteenth-century Philadelphia, Elizabeth Fergusson, Hannah Griffiths, Deborah Logan, Annis Stockton, and Susanna Wright wrote and exchanged thousands of poems and maintained elaborate handwritten commonplace books of memorabilia. Through their creativity and celebrated hospitality, they initiated a salon culture in their great country houses in the Delaware Valley. In this stunningly original and heavily illustrated book, Susan M. Stabile shows that these female writers sought to memorialize their lives and

aesthetic experience a purpose that stands in marked contrast to the civic concerns of male authors in the republican era Drawing equally on material culture and literary history Stabile discusses how the group used their writings to explore and at times replicate the arrangement of their material possessions including desks writing paraphernalia mirrors miniatures beds and coffins As she reconstructs the poetics of memory that informed the women s lives and structured their manuscripts Stabile focuses on vernacular architecture penmanship souvenir collecting and mourning Empirically rich and nuanced in its readings of different kinds of artifacts this engaging work tells of the erasure of the women s lives from the national memory as the feminine aesthetic of scribal publication was overshadowed by the proliferating print culture of late eighteenth century America
