Room of His Own Daria S. Smirnova, 2025-09-30 A Room of His Own Joseph Brodsky and the Making of a Bilingual Poet makes the original and persuasive claim that Brodsky's force as a transnational poet derives paradoxically from an inward looking stance that privileges the trope of the room and a practice of self translation that is faithful to his own internal poetics rather than the poetic norms of the target tradition The resulting bilingual poetics is one that though not universally accepted by English readers ultimately had a profound effect on the Anglo American literary tradition and anticipated certain foreignizing tendencies that have become central to translation studies and theories of transnationalism No less powerful than the book's thesis is the elegant analyses which encompass Brodsky's Russian poetry his translations from Russian to English and his English language essays Teaching Academic ESL Writing Eli Hinkel, 2003-10-17 Teaching Academic ESL Writing Practical Techniques in Vocabulary and Grammar fills an important gap in teacher professional preparation by focusing on the grammatical and lexical features that are essential for all ESL writing teachers and student writers to know The fundamental assumption is that before students of English for academic purposes can begin to successfully produce academic writing they must have the foundations of language in place the language tools grammar and vocabulary they need to build a text This text offers a compendium of techniques for teaching writing grammar and lexis to second language learners that will help teachers effectively target specific problem areas of students writing Based on the findings of current research including a large scale study of close to 1 500 non native speakers essays this book works with several sets of simple rules that collectively can make a noticeable and important difference in the quality of ESL students writing The teaching strategies and techniques are based on a highly practical principle for efficiently and successfully maximizing learners language gains Part I provides the background for the text and a sample of course curriculum guidelines to meet the learning needs of second language teachers of writing and second language writers Parts II and III include the key elements of classroom teaching what to teach and why possible ways to teach the material in the classroom common errors found in student prose and ways to teach students to avoid them teaching activities and suggestions and questions for discussion in a teacher training course Appendices to chapters provide supplementary word and phrase lists collocations sentence chunks and diagrams that teachers can use as needed The book is designed as a text for courses that prepare teachers to work with post secondary EAP students and as a professional resource for teachers of students in EAP courses **Social Semiotics of Arabic Satellite Television** Ali Darwish, 2009 Arabic satellite television is a phenomenon that has swept the Arab world in less than two decades and is said to have dramatically changed the Arab region It has created a world of contrasts and contradictions between tradition and liberalism and a polarization of views and opinions all vying for dominance and control This book examines the social semiotics of Arabic satellite television and studies the multimodal representations of Arab social and cultural values and their implied meanings in a communication medium that heavily relies on imported western models **International Music and Drama** , 1915 *The Routledge Companion to Risk, Crisis and Security in Business*
