Richards, Chisa Onyejekwe, 2025-06-26 This book investigates the relationship between human rights and taxation, exploring how human rights have been impeded or enhanced through tax laws and policies and what this means for sustainable development in the Global South. Drawing on cases from across the Global South, the book demonstrates the benefits of embedding human rights into tax policies and legislation. The authors not only highlight the role of legislative measures and other human rights regulations in the realisation of international treaty rights but also argue that it creates an environment whereby individuals feel duty-bound to pay taxes when necessary, thereby securing a sustainable revenue source for the state to meet their socio-economic responsibilities. The book investigates key topics such as compliance, redistribution, e-commerce, tax havens and the role of key stakeholders. Sub-Saharan Africa Ms. Janet Gale Stotsky, Ms. Lisa Kolovich, Suhaib Kebhaj, 2016-08-20 Gender budgeting is an initiative to use fiscal policy and administration to address gender inequality and women's advancement. A large number of sub-Saharan African countries have adopted gender budgeting. Two countries that have achieved notable success in their efforts are Uganda and Rwanda, both of which have integrated gender-oriented goals into budget policies, programs, and processes in fundamental ways. Other countries have made more limited progress in introducing gender budgeting into their budget making. Leadership by the ministry of finance is critical for enduring effects, although nongovernmental organizations and parliamentary bodies in sub-Saharan Africa play an essential role in advocating for gender budgeting. *Legal Duty and Upper Limits* Bernd Reiter, 2020-11-27 This book proposes a radical new way of thinking about our democratic future, our ecological survival, and our ways to keep economies fair. It shows that adopting upper limits to wealth and income, replacing elections with local direct democracy, and legal duty involving randomly selected citizens and replacing welfare and redistribution policies with pre-distribution and reparations promises new solutions to political apathy, discontent, manipulation, economic inequality, unfairness, unequal opportunities, and looming ecological disaster. **Environmental Subsidies to Consumers** Shigeru Matsumoto, 2015-06-12 A typical consumer underestimates the benefits of future energy savings and underinvests in energy efficiency relative to a description of the socially optimal level of energy efficiency. To alleviate this energy efficiency gap problem, various programs have been implemented. In recent years, many governments have started providing consumers with subsidies on the purchases of eco-friendly products such as hybrid cars and energy-efficient appliances. This book conducts a comprehensive analysis of the environmental subsidy programs conducted in Japan and examines their impacts on consumer product selection, consumer product use, and environmental outcome. The book also proposes recommendations for future environmental and industrial policies. The book's empirical findings will be of interest to those who are researching on and policymakers of environmental and industrial policies. How South Africa Works Jeffrey Herbst, Greg Mills, 2015-07-01 The overwhelming challenge that South Africa faces and has to date failed to address is unemployment, which falls especially on African youths who were promised a better future after 1994. If the current unemployment challenge is not addressed, it will be impossible to sustainably lift many millions of people out of poverty. *How South Africa Works* reviews the country's major economic achievements over the past two decades. Through numerous interviews with politicians, business leaders, and analysts, it examines the challenges and opportunities across key productive sectors including agriculture, manufacturing, services, and mining, illustrative of the policy challenges that leaders face. It scrutinises the social grant and education systems to understand if South Africa has established mechanisms for people not only to escape destitution but be ready to be employed and identifies steps that some of South Africa's most notable

entrepreneurs have taken to build world class enterprises Recognising the essential challenge to cultivate more employers to employ people How South Africa Works concludes by offering an agenda and active steps for greater competitiveness for government business and labour

Eurasian Regionalisms and Russian Foreign Policy Mikhail A. Molchanov,2016-03-03 Bridging foreign policy analysis and international political economy this volume offers a new look at the problem of agency in comparative regional integration studies It examines evolving regional integration projects in the Eurasian space defined as the former Soviet Union countries and China and the impact that Russian foreign policy has had on integration in the region Mikhail Molchanov argues that new regionalism in Eurasia should be seen as a reactive response to contemporary challenges that these developing states face in the era of globalization Regional integration in this part of the world treads the unknown waters and may not simply repeat the early steps in the evolution of the European Union The question of a hegemonic leadership in particular as exercised by a country that spearheads regional integration efforts animates much of the discussion offered in the book Moreover Eurasian regionalisms are plural phenomena because of complementary and competing projects that engage the same or partially overlapping groups of countries By combining foreign policy studies with an examination of the international political economy of regionalism in Eurasia the author furthers our understanding of new regionalism both theoretically and empirically
