Innovation in Public Transport Finance Shishir Mathur,2016-05-23 With all levels of governments currently and for the foreseeable future under significant fiscal stress any new transit funding mechanism is to be welcomed Value capture VC is one such mechanism which involves the identification and capture of a public infrastructure led increase in property value This book reviews four major VC mechanisms joint development projects special assessment districts impact fees and tax increment financing all of which are used to fund transit in the United States Through the study of prominent examples of these VC mechanisms from across the US this book evaluates their performance focusing on aspects such as equity revenue generating potential stakeholder support and the legal and policy environment It also conducts a comparative assessment of VC mechanisms to help policy makers and practitioners to choose one or a combination of VC mechanisms Although the book focuses on the US the use of the VC mechanisms and the urgent need for additional revenue to fund public transportation are world wide concerns Therefore an overview of the VC mechanisms in use internationally is also provided **Local**

Economic Development and the Environment Susan M. Opp,Jeffery L. Osgood, Jr.,2017-09-25 A clear and practical examination of complex issues Local Economic Development and the Environment Finding Common Ground provides a broad academic look at the intersection of two important areas for local administrators In addition to managing development in a strained economic climate most administrators are also expected to be stewards of the environment However economic conditions often leave them with limited options for pursuing economic development and at the same time being environmentally mindful Many find themselves without a clear understanding of the concepts tools and best practices available to accomplish this herculean task Translating complex environmental and economic concepts into easily applicable practices the book Gives practitioners the information they need to communicate with consultants constituents and officials and to avoid ideological obstacles Compares regulatory differences between states and other geographical differences Includes examples from across the country to highlight variations in environmental regulations and laws Provides technical legal and political insights into the process of pursuing local economic development projects that incorporate protection and awareness Contains case studies that demonstrate the concepts in action allowing readers to fully grasp the complexities associated with sustainable economic development Discusses how local administrators can balance the economic and environmental needs of the future Bridging the gap between policy making intention and outcome this book connects readers with a larger body of research that not only underpins practical applications but also helps them avoid legal technical and

political obstacles It provides an arsenal of best practices and everyday easy to use strategies for optimizing the difficult balance between economic development and environmental protection **The Law of Green Buildings** J. Cullen

Howe,2010 Examining the most important issues in achieving the goal of building more efficient and less damaging buildings this book highlight the significant statutes and regulations as well as other legal issues that need to be considered when advising clients in the development construction financing and leasing of a green building Topics include federal incentive programs financing alternative energy site selection land use planning green construction practices and materials emerging legal issues and the effects of climate change on planning and architectural design **Budgeting for Local Governments**

and Communities Douglas Morgan,Kent S. Robinson,Dennis Strachota,James A. Hough,2017-09-19 Budgeting for Local Governments and Communities is designed as the primary textbook for a quarter or semester long course in public budgeting and finance in an MPA programme Many currently available texts for this course suffer from a combination of defects that include a focus on federal and state budgeting a lack of a theoretical governance framework an omission of important topics and typically a lack of exercises and datasets for student use Budgeting for Local Governments and Communities solves all of these problems The book is exceptionally comprehensive and well written and represents the efforts of veteran authors with both teaching and real world experience Key Features Special Focus on Local Government Budgeting focuses exclusively on budgeting at the local levels of American government which are responsible for spending 40 percent of the taxes collected from citizens Integration of Theory and Practice teaching cases and chapters capture the lessons learned by professional practitioners who have extensive experience in making local public budgeting work on the ground Polity Approach to Local Budgeting presents an introduction to local budgeting as the central political activity that integrates the resources of the community into a unified whole Budgeting is presented as governance work rather than as a unique set of skills possessed by analysts and financial specialists Legal Historical Economic and Moral Foundations of Local Government Budgeting provides readers with an understanding of how the structures and processes of local budgeting systems are firmly tethered to the underlying core values legal principles and historical development of the larger American federal state and local political systems Electronic Datasets and Budgeting Exercises the text includes access to extensive electronic datasets and practice exercises that provide abundant opportunities for students to learn through doing Extensive Glossary and Bibliography covers terms on the history and practice of local public budgeting **New Brunswick, New Jersey** David Listokin,Dorothea

Berkhout,James W. Hughes,2016-06-14 While many older American cities struggle to remain vibrant New Brunswick has transformed itself adapting to new forms of commerce and a changing population and enjoying a renaissance that has led many experts to cite this New Jersey city as a model for urban redevelopment Featuring more than 100 remarkable photographs and many maps New Brunswick New Jersey explores the history of the city since the seventeenth century with an emphasis on the dramatic changes of the past few decades Using oral histories archival materials census data and surveys

authors David Listokin Dorothea Berkhout and James W Hughes illuminate the decision making and planning process that led to New Brunswick s dramatic revitalization describing the major redevelopment projects that demonstrate the city s success in capitalizing on funding opportunities These projects include the momentous decision of Johnson Johnson to build its world headquarters in the city the growth of a theater district the expansion of Rutgers University into the downtown area and the destruction and rebuilding of public housing But while the authors highlight the positive effects of the transformation they also explore the often heated controversies about demolishing older neighborhoods and ask whether new building benefits residents Shining a light on both the successes and failures in downtown revitalization they underscore the lessons to be learned for national urban policy highlighting the value of partnerships unwavering commitment and local leadership Today New Brunswick s skyline has been dramatically altered by new office buildings residential towers medical complexes and popular cultural centers This engaging volume explores the challenges facing urban America while also providing a specific case study of a city s quest to raise its economic fortunes and retool its economy to changing needs *Building Healthy Communities* Roger A. Clay, Susan R.
