and analytical procedures that has hitherto been overlooked This research monograph is then not an application of narratology in the medium and art of comics but a revision of narratological concepts and approaches through the study of narrative comics Thus while narratology is brought to bear on comics equally comics are brought to bear on narratology

Version Thirteen Martin Baker, 2013-10-24 Imagine a piece of technology so valuable that it turns the world's two most powerful lobbies the oil industry and the arms trade against one another Yavlinsky a brilliant Russian scientist has created a piece of wonder technology a drilling process that uses the forces of supercavitation Named Version Thirteen it enables oil explorers to take 40 per cent more oil out of the ground it's worth trillions But there's a problem Supercavitation is also the basis for highly sophisticated weaponry submarines and torpedoes that can travel at hundreds of kilometres per hour beneath the sea Russian arms dealers have been selling this technology to Iran since the 1980s If the revolutionary oil drilling technology works the weaponry is rendered useless When Yavlinsky is found dead the designs for the revolutionary drilling process are stolen or destroyed Except one set of design plans does still exist The one lodged in Samuel Spendlove's head Spendlove an Oxford academic now working as a spy is the novel's hero Blessed or cursed with a photographic memory he suddenly finds himself the most wanted man in the world The story of his pursuit takes us from the Middle East to Moscow to the Kamchatka peninsula a land of no roads and many active volcanoes one of the most remote and spectacular places on the planet Fans of Robert Harris and Martin Cruz Smith will love Martin Baker Combining painstaking research with the forensic storytelling skill of a Hollywood screenwriter Version Thirteen marks the arrival of a master of the genre

Domnica Radulescu, 2015-06-08 In what ways does political trauma influence the art arising from it Is there an aesthetic of war and exile in theatrical works that emerge from such experiences Are there cultural markers defining such works from areas like Eastern Europe and Israel This book considers these questions in an examination of plays performances and theater artists that speak from a place of political violence and displacement The author s critical inquiry covers a variety of theatrical experimentations including Brechtian distancing black humor pastiche surreal and hyper real imagery reversed chronologies and disrupted narratives Drawing on postmodern theories and performance studies as well as interviews and personal statements from the artists discussed this study explores the transformative power of the theater arts and their function as catalysts for social change healing and remembrance
