Conversational Humour and (Im)politeness Valeria Sinkeviciute, 2019-10-15 *Conversational Humour and Im politeness* is the first systematic study that offers a socio-pragmatic perspective on humorous practices such as teasing, mockery and taking the piss and their relation to im-politeness. Analysing data from corpora, reality television and interviews in Australian and British cultural contexts, this book contributes to cross-cultural and intercultural research on humour and its role in social interaction. Although in both contexts, jocular verbal practices are highly valued and a positive response the preferred reaction, can be expected, the conceptualisation of what is seen as humorous can vary especially in terms of what goes too far. By examining how attempts at humour can occasion offence, presenting a distinction between frontstage and backstage perceptions of jocularity and looking at how language users evaluate jocular behaviours in interaction, this study shows how humour and im-politeness are co-constructed and negotiated in discourse. This book will be of interest to scholars and students in pragmatics, conversational humour, im-politeness, intercultural communication, discourse analysis, television studies and interaction in English-speaking contexts. *Mosby's Guide to Nursing Diagnosis - E-Book* Gail B.
