

The Greening of America

There is a revolution coming. It will not be like revolutions of the past. It will originate with the individual and with culture, and it will change the political structure only as its final act. It will not require violence to succeed, and it cannot be successfully resisted by violence. This is the revolution of the new generation.

Robert Jackall, Henry M. Levin

The Greening Of America By Charles Reich Random House December 27 197:

Worker Cooperatives in America Robert Jackall, Henry M. Levin, 1986-02-07 *Adolescence and Work* David Stern, Dorothy Eichorn, 2013-06-17 This volume illustrates connections between the concerns of vocational psychology and the adjoining disciplines of sociology cultural anthropology and labor economics The intent is to suggest how vocational psychology and career counseling might recognize more explicitly the ever changing social influences and institutional constraints that affect individual as they begin or contemplate beginning their adult work In Conflict No Longer Irene Taviss Thomson, 2000 Drawing on social criticism self help manuals and the social scientific analysis of American character In Conflict No Longer examines American thinking about individualism conformity and community from 1920 through 1995 Taviss Thomson s analysis reveals a basic shift in American culture from a belief that the individual is necessarily in conflict with society and that the self chafes against the constraints imposed by society to a belief that the self is expressed in the groups relationships and subcultures that help shape it Taviss Thomson contends that this new model of a relational or embedded self arose due to a weakening of traditional identities based on occupation social class gender and age which left individuals freer to construct their own identities In an age where Americans increasingly abandon the traditional mythology of an individual struggling against social constraints In Conflict No Longer forecasts a picture of American culture for the next millennium *Updike's America* Dilvo I. Ristoff, 1988 Updike s America is a study of the Rabbit trilogy from a culturally oriented perspective Ristoff demonstrates how Updike uses the polyphony of the American scene to generate moods conflicts and action and how the appropriation of national history by the various characters of the trilogy reveals the ideological spectrum of America in the fifties sixties and seventies **American Dreams** John K. Roth, 1976 Human Responses to Social Problems Louis Schneider, 1981 **In Private** Joanne Turney, 2024-12-26 The 1970s is often considered the period that design forgot In Private sets out to challenge this view offering a cultural history of domestic interior design in Britain and America over the course of a decade that shaped the contemporary relationship between fashion and interiors With each chapter dedicated to a different room in the house this book explores style design and socio cultural influence from the sitting room to the sauna and from the kitchen to the conservatory Considering the key critical discourses which arise from the style and function of each space In Private looks at how the public sphere informed the decorating styles furniture and furnishing of the private home from shag pile carpets to Swedish duvets Demonstrating how the cultural environment of the 1970s sparked the ideas styles and practices that have become common currency in today s interior design the book examines questions of sensuality tactility fashion fantasy and gender Illustrated throughout and packed with original research it provides an insight into 1970s innovation and eclecticism in fashion textiles and the domestic interior **Out of Paper** Katie Anania, 2024-06-11 A dynamic look at how artists used paper to radically redefine the relationship between the body and its surroundings and to propose new conceptions of ecology From sketches created inside pants pockets to paper

strewn performances that took cues from protests and riots the work on paper in the 1960s acted as a mobile flexible connective tissue between the body and the world around it In this book Katie Anania reveals how artists Carolee Schneemann William Anastasi Richard Tuttle Robert Morris and Charles White harnessed this historically intimate medium during a period in which Americans were becoming urgently concerned with identity consumer culture the overreach of state power and the rapidly deteriorating natural world Her reexamination of drawing shows how the omnipresence of paper facilitated artists critiques of dominant systems from modern throwaway culture to bureaucracy to colonial violence Engaging a wide range of actions such as recycling recording cutting planning and erasing Anania offers fresh insights into paper s role not merely as a preparatory medium but one essential to the histories of performance minimalist conceptual and land art Out of Paper uses materiality studies social history and feminist art historical methods to situate paper as a major conduit for thought in the postwar United States

Index to Book Reviews in Religion Douglas W. Geyer,1990 **The American Heritage History of the Law in America** Bernard Schwartz,1974 Narrative account emphasizing notable events and personalities within the background of the nation s development The Greening of America Charles A. Reich,1970
