Scattering by Aerial and Ground Radar Objects is ideal for scientists engineers and researchers of electromagnetic wave scattering computational electrodynamics and radar detection and recognition algorithms The Lightweight Fighter Program David C. Aronstein, Albert C. Piccirillo, 1996 This case study outlines the development of the Lightweight Fighter program including the development technology and flight test history of the YF 16 and YF 17 The streamlined and highly successful Lightweight Fighter program effectively used experimental prototypes to introduce a set of new and advanced technologies to fighter aircraft and serves as an excellent example of technology management risk reduction in the development process and acquisition philosophy *Lavi* John W. Golan, 2016-01-01 The Lavi fighter program the largest weapons development effort ever undertaken by the State of Israel envisioned a new generation of high performance aircraft In a controversial strategy Israel Aircraft Industries intended to develop and manufacture the fighters in Israel with American financial support The sophisticated planes developed in the mid 1980s were unique in design and intended to make up the majority of the Israeli air force Though considerable prestige and money were at stake developmental costs increased and doubts arose as to whether the Lavi could indeed be the warplane it was meant to be Eventually the program became a microcosm for the ambitions fears and internal divisions that shaped both the U S Israeli relationship and Israeli society itself But the fighter never made it to operational service and until now the full breadth and significance of the Lavi story have never been examined and presented Lavi The United States Israel and a Controversial Fighter Jet traces the evolution of the Lavi fighter from its genesis in the 1970s to its scrapping in August 1987 John W Golan examines the roles of Israeli military icons and political leaders such as Ezer Weizman Ariel Sharon Menachem Begin and Yitzhak Rabin in the program and in relation to their counterparts in the United States On the American side Golan traces the evolution of government policy toward the program detailing the complex picture of the U S foreign policy apparatus and of U S Israeli relations in general from President Reagan s public endorsement of the program on the White House lawn to Defense Secretary Caspar Weinberger s unremitting attempts to cancel it in succeeding years **Routledge Handbook of Air Power** John Andreas Olsen, 2018-02-20 The Routledge Handbook of Air Power offers a comprehensive overview of the political purposes and military importance of air power Despite its increasing significance in international relations statecraft and war the phenomenon of air power remains controversial and little understood beyond its tactical and technological prominence This volume provides a comprehensive survey designed to contribute to a deep and sophisticated understanding of air power Containing contributions from academics and service personnel the book comprises five sections Part I Foundation the essence of air power Part II Roles and functions delivering air power Part III Cross domain integration applying air power Part IV Political social economic environment air power in its strategic context Part V Case studies air power in its national context Examining a series of themes and factors that contribute to an understanding of the utility and applicability of air power this Handbook focuses on the essence of air power identifies its roles and functions and places air power in its wider

strategic and national contexts The Routledge Handbook of Air Power will be of great interest to students of air power strategic studies defence studies security studies and IR as well as to military professionals and policy makers

Technology and the Air Force: A Retrospective Assessment, *Coalition Air Warfare in the Korean War, 1950-1953* Air Force Historical Foundation. Symposium, 2005 In commemoration of the fiftieth anniversary of the Korean War the official history offices of the U S Army Navy Marine Corps and Air Force and their respective historical associations collaborated to sponsor as comprehensive a symposium as possible including as participants some of the coalition partners who contributed forces and weapons to the war The intent of this symposium titled Coalition Air Warfare during the Korean War 1950 1953 was to focus not only on the contributions made by the armed forces of the United States but also on those of America s allies The diverse group of panelists and speakers included not only scholars with subject matter expertise but also veteran soldiers sailors and airmen who had served in that conflict It was hoped that the melding of these diverse perspectives would provide interesting if sometimes conflicting views about the Korean War The symposium organizers designated an agenda of six specific panels for investigation including Planning and Operations Air Superiority Air Support of Ground Forces Air Interdiction and Bombardment Air Reconnaissance and Intelligence and Logistical Support of Air Operations Each session began with commentary by the panel chairman which was followed by formal papers and in some instances included a lively question and answer session The papers and most of the proceedings found their way into print and are recorded here in an effort to permanently capture the activities challenges contributions and heroics of the coalition air forces and the airmen who fought during the Korean conflict

Eye of the Viper Peter Aleshire, 2005-11-01 Hand picked pressure tested and full of

astronaut gung ho the young pilots of Eye of the Viper are poised for the toughest assignment of their career the exhaustive six month training course at Arizona s Luke Air Force Base at a cost of 2 million each Luke the world s largest fighter wing is the only F 16 fighter training base in the United States and each year it produces one thousand pilots who will fly the F 16 from Korea to Afghanistan to Iraq But being among the elite pilots who are selected for the course is by no means a guarantee that they will earn the right to fly the F 16 Only a few select individuals will have what it takes Award winning journalist Peter Aleshire provides a full blast of the rigors and intensity of the course the personalities the incredible machines the irreverence the bravado and the toughness not only of the hand picked students seeking a place in the warrior subculture but of the veteran pilots who must teach them how to stay alive Time Briton Hadden, Henry R. Air Force Disappointments, Mistakes, and Failures Kenneth Werrell, 2024-06-18 While successful developments in aviation receive considerable attention the projects that failed or otherwise did not live up to expectations receive far less if any scrutiny Typically unsuccessful efforts are briefer in duration and have a less visible paper trail Thus while the literature is rich in success stories we tend to forget or simply bury our failures And as one observer has suggested that there were failures mistakes and wrong turns reminds us that progress is not inevitable that acknowledged error can be as instructive as success and that roads not taken impose a price all their own Here author Kenneth P Werrell tells of a race to overcome obstacles politics resources competing technologies timing in the quest to deliver quality if not war winning machinery The focus of *Air Force Disappointments Mistakes and Failures 1940 1990* is on aircraft e g bombers fighters transports and missiles e g cruise missiles standoff missiles ballistic missiles surface to air missiles air to air missiles An intelligence system is also evaluated These case studies give the context and details of the development testing and as appropriate operational service Highlighting the problems and criticisms of these systems then provides an opportunity to determine what went wrong The reasons for the failures of these systems vary from the obvious money delays technical problems to more complex reasons such as the foe s reaction politics new technologies and timing The tale of these disappointments is a heretofore untold story These projects in which the US Air Force stumbled are outliers within the overall success of the service and fortunately its successes outnumber the failures *Technical Publications for Army Air Forces Field Technical Libraries*, 1943
