The Globalisation of Chinese Business Firms H. Yeung,K. Olds,1999-11-23 Chinese business firms and their networks of personal and business relationships are becoming increasingly important players in the global economy This book examines the global and regional operations of Chinese business firms and considers their implications for the management and organisation of these firms aided by specific case studies Written by leading researchers in this field The Globalisation of Chinese Business Firms is a valuable and timely contribution to the study of Asian business systems

Business Strategy and Corporate Governance in the Chinese Consumer Electronics Sector Hailan Yang,Stephen Morgan,2011-10-18 This book analyses how China s firms in the consumer electronics CE sector have developed their business strategy and corporate governance during the reform process The CE sector is one of China s most important and dynamic manufacturing sectors As one of the earliest market oriented sectors after 1978 its experience illustrates the adoption of the Western model of management in China This is the first book to analyse the link between business strategy corporate governance and performance of firms explicitly comparing state collective and privately owned firms This book argues that the competitive dynamics of the market are central to the survival of firms in contemporary China Focuses on the state collective and private Chinese firms in the consumer electronics sector Provides insights into the interactions among political economic and corporate factors in the China business environment that influence the strategies and performance of these firms Compares the corporate governance of these Chinese firms across different ownership forms Globalizing

Regional Development in East Asia Henry Wai-chung Yeung, 2013-09-13 Significant historical and geographical differences account for the many processes and trajectories of regional development in East Asia. These historical and geographical specificities in East Asia have prompted serious re-examination of existing theories in regional development and in particular the new regionalism approach associated with such ideas as the learning region, institutional thickness, relational assets and regional innovation system. This book brings together a group of leading researchers specializing in local and regional development in East Asian economies. Through in-depth empirical studies of specific regions and localities, these authors offer fresh and innovative perspectives on how regions evolve and develop over time in the world's most dynamic macro-regional economy. In particular, their work points to the critical importance of local and trans-local processes in shaping regional development trajectories. The book is timely given that the debate on the nature and dynamics of regional development in both academic and policy circles has now moved on. From the earlier focus on endogenous regional assets such as localized networks of association and trust, scholars and policymakers are now analyzing the complex relationship between economic globalization and regional change. This high-calibre collection makes a significant contribution to the literature on local and regional development in Asia and provides an important resource for researchers, students and policy makers interested in East Asia. This book was published as a special issue of *Regional Studies*.

The Idea of Good Governance and the Politics of the Global South Haroon A. Khan, 2015-08-11 One of the major objectives of good governance is human development. Many worry that without good governance, many developing countries may become failed states. Using one of the worst industrial disasters in Bangladesh to date, Haroon A. Khan helps further our understanding of the importance of bureaucratic capacity for achieving good governance and offers a new paradigm for a merit system to improve governance. In doing so, he introduces the reader to the concept of good governance and its importance by investigating its relationship with failed states, globalization, bureaucratic effectiveness and human development. *The Idea of Good Governance and the Politics of the Global South* will be useful for the students interested in political science, public administration and international relations.

Management and Organizational Behaviour Jayantee Mukherjee Saha, 2006 Existing literature on organizational behaviour is either lopsided or ignores the management dimensions. This book presents a holistic perspective of the subject to develop a correct perception about it and is divided into twenty chapters. The comprehensive text covers the following topics: Introduction to Management, Planning, Controlling, Introduction to OB, Learning, Personality, Perception, Motivation, Communication, Teams, Leadership, Conflict, Transactional Analysis, Organizational Culture, Climate, Power and Politics, Introduction to HRM, Organizational Change and Development, Attitude and Ethics, Trends in International Business and Quality of Working Life. The book conforms to the syllabi of most of the Indian Universities and would serve as a useful text for students of MBA, M.Com, MCA, B.Tech, BBM and other diploma courses in management. It meets the needs of students, practicing managers and every person having an inclination to know more about the subject.
