Heartbeat Danielle Steel, 2009-02-25 Bill Thigpen, writer/producer of the No. 1 daytime TV drama, was so busy watching his career soar that he never noticed his marriage collapse. Now nine years later, living alone in Hollywood, even without his wife and kids, his life and success are still reasonably sweet. Top of the chart ratings, good-natured casual affairs and special vacations with his two young sons. His life is in perfect balance; he thinks Adrian Townshend thought she had everything: a job she liked as a TV production assistant and a handsome husband who was a rising star in his own field. In an enviable life, they'd worked hard for the American Dream. Until she got pregnant. Suddenly, all she had was chaos. And Steven's ultimatum: Him or the baby. The question was, did he mean it? He did. Bill Thigpen and Adrian Townshend collided in a supermarket. And the very sight of her suddenly makes him want more in his life: a woman he really loves, a real family again. But does he need the heartache of another man's baby, another wife? Neither does. But they couldn't help it. Danielle Steel touches the Heartbeat of two wonderful people as their friendship deepens into love as they meet the obstacles that life presents with humor, humanity, and courage.

TIME Harry Potter The Editors of TIME, 2017-06-23 The exploits of Harry Potter brought a new kind of magic to children's literature. Becoming Bestsellers: John Grisham and Danielle Steel (Sample from Chapter 2 of THE BESTSELLER CODE) Jodie Archer, Matthew L. Jockers, 2016-08-16 This sneak peek/teaser featuring literary giants John Grisham and Danielle Steele from Chapter 2 of *The Bestseller Code*, a groundbreaking book about what a computer algorithm can teach us about blockbuster books. Stories and reading reveals the importance of topic and theme in bestselling fiction according to percentages assigned by what the authors refer to as the bestseller ometer. Although 55,000 novels are published every year, only about 200 hit the lists: a commercial success rate of less than half a percent. When the computer was asked to blindly select the most likely bestsellers out of 5,000 books published over the past thirty years based only on theme, it discovered two possible candidates: *The Accident* by Danielle Steel and *The Associate* by John Grisham. The computer recognized quantifiable patterns in their seemingly opposite but undeniably successful writing careers with legal thrillers and romance. In Chapter 2, Archer and Jockers analyze this data and divulge the most and least likely to best-sell topics and themes in fiction with a human discussion of the why behind these results. *The Bestseller Code* is a big idea book about the relationship between creativity and technology. At heart, it is a celebration of books for readers and writers, a compelling investigation into how successful writing works.
