Utah Wildlife Tracks:

Field Guide to Animal Tracks and Scat of California Lawrence Mark Elbroch, Michael Kresky, Jonah Evans, 2012-05-07 Spotting an animal's fresh footprints in the wild can conjure a world for the hiker. Why did the deer tracks disappear? Where did the cougar turn off the trail? What does it mean when two sets of footprints seem to coincide? This beautifully illustrated field guide, the first devoted to the tracks and signs of California animals including birds, mammals, reptiles, amphibians, and invertebrates like spiders and beetles, blends meticulous science with field experience to provide an engaging companion for both armchair exploration and easy field identification. Filled with useful tools for the wildlife expert and essential background and visual aids for the novice, including in-depth information about the ecology of each species, this book goes beyond basic recognition of types to interpret what animals leave behind as a way of seeing how they move through the world.

See ghost towns, old mines and mill workings, old railroads and stage lines along the 35 off-road trails. Directions include GPS coordinates and all trails are rated for difficulty, mileage, driving time, remoteness, and more. Descriptions highlight places to camp, hike, mountain bike, fish, and sightsee. Histories recount the days of the Wild West.

Cenozoic Vertebrate Tracks and Traces Spencer G. Lucas, Justin A. Spielmann, Martin G. Lockley, 2007

Utah's Big Five National Parks Harley McAllister, Abby McAllister, 2017-10-23 All activities certified kid tested by the authors' four rambunctious sons. Each includes best hikes, mountain bike routes, features to climb on, places to see wildlife, and more. Natural history learning opportunities also included. The parents of four boys, Harley and Abby McAllister, have spent the last few years figuring out the best way to explore our national parks with restless kids in tow. These first two books in this new series help families plan their vacations in Yellowstone National Park and in Utah's Big Five national parks: Arches, Canyonlands, Capitol Reef, Bryce Canyon, and Zion, so that everyone has a memorable trip. With an easy-to-follow organization based on park geography, an emphasis on outdoor fun and education, and an approach that zeroes in on the very best options for families, each guide fully explores the national park it covers. Family-friendly hiking trails for a range of age and skill levels, major natural sights, the best wildlife viewing spots, including wildlife checklists for kids to mark off, fishing, biking, climbing, and rafting opportunities, and much more are all detailed. The guides also promote the popular Junior Ranger programming found throughout the National Parks system, as well as other park programs that appeal to kids. And they provide basics on access, trip planning, and overnight options from campgrounds to lodges to cabins.
