Immigration and Exile Foreign-Language Press in the UK and in the US Stéphanie Prévost, Bénédicte Deschamps, 2023-12-14 Both Britain and the United States have had a long history of harbouring foreign political exiles who often set up periodicals which significantly contributed to community building and political debates. However, this varied and complex journalism has received little attention to date, particularly regarding the languages in which it was produced. This wide-ranging edited volume brings together for the first time interdisciplinary case studies of the exile foreign language press in French, German, Italian, Spanish, Russian, Flemish, Polish, among other languages across Britain and the US, establishing a useful comparative framework to explore how periodicals tackled key political, linguistic and literary issues from the 19th century to the present day. Building on the existing literature on the exile foreign language press in the United States and developing the study of this phenomenon in the British context, *Immigration and Exile Foreign Language Press in the UK and in the US* offers fresh perspectives into how these marginalised periodicals influenced the political, economic and social contexts that brought them into existence. This is a major contribution to the burgeoning field of transnational periodicals and will be of interest to anyone studying the history of the Anglo-American press, the history of immigration and cultural history.

Macmillan Directory of UK Business Information Sources James Tudor, 1992-09-15 The objective of this publication is to provide a one-stop guide to business information insofar as that is possible within the confines of a useable book. It aims to give guidance on both the published and organisational sources relevant to the needs of the non-professional business researcher and provides a listing of worthwhile references and contacts. As previously, the Directory is organised so that both published sources and information centres are grouped together under their applicable Standard Industrial Classification (SIC) number and heading. This new edition also incorporates NACE classification and correlation tables. The second category again includes those UK and pan-national organisations which focus on specific discrete industry sectors, which limits the number of organisational sources in the directory to those that are most worthwhile.
