Students Must Rise Ann Heffernan,Noor Nieftagodien,Sifiso Mxolisi Ndlovu,Bhekizizwe Peterson,2016-06-01 A detailed account of the incredibly influential Soweto Student Uprising of 1976 The Soweto Student Uprising of 1976 was a decisive moment in the struggle against apartheid It marked the expansion of political activism to a new generation of young activists but beyond that it inscribed the role that young people of subsequent generations could play in their country s future Since that momentous time students have held a special place in the collective imaginary of South African history Drawing on research and writing by leading scholars and prominent activists Students Must Rise takes Soweto 76 as its pivot point but looks at student and youth activism in South Africa more broadly by considering what happened before and beyond the Soweto moment Early chapters assess the impact of the anti pass campaigns of the 1950s of political ideologies like black consciousness as well as of religion and culture in fostering political consciousness and organisation among youth and students in townships and rural areas Later chapters explore the wide reaching impact of June 16th itself for student organisation over the next two decades across the country Two final chapters consider contemporary student based political movements including RhodesMustFall and FeesMustFall and historically root these in the long and rich tradition of student activism in South Africa 2016 marks the 40th anniversary of the 1976 June 16th uprisings This book rethinks the conventional narrative of youth and student activism in South Africa by placing that most famous of moments the 1976 students uprising in Soweto in a deeper historical and geographic context **Naturalizing Inequality** Michela Marcatelli,2021-10-05 More than twenty five years after the end of apartheid water access remains a striking reminder of racial inequality in South Africa This book compellingly argues that in the post apartheid period inequality has not only been continuously reproduced but also legitimized Michela Marcatelli unravels this inequality paradox through an ethnography of water in a rural region of the country The Waterberg Plateau is a space where agriculture conservation and extraction coexist and intersect Marcatelli examines the connections between neoliberalism race and the environment by showing that racialized property relations around water and land are still recognized and protected by the post apartheid state to sustain green growth She argues that the government depicts growth as the best if not only solution to inequality While white landowners maintain access to water however black ex farmworkers are dispossessed once again of this essential to life resource If the promise of growth serves to normalize inequality the call to save nature has the effect of naturalizing it even further Contemporary Architects Muriel Emanuel,2016-01-23 *Bodies of Truth* Rita Kesselring,2016-10-12 Bodies of Truth offers an intimate account of how apartheid victims deal with the long term effects of violence focusing on the intertwined themes of embodiment injury victimhood and memory In 2002 victims of apartheid era violence filed suit against multinational corporations accusing them of aiding and abetting the security forces of the apartheid regime While the litigation made its way through the U S courts thousands of victims of gross human rights violations have had to cope with painful memories of violence They have also confronted an official discourse claiming that the Truth and Reconciliation

Commission of the 1990s sufficiently addressed past injuries This book shows victims attempts to emancipate from their experiences by participating in legal actions but also by creating new forms of sociality among themselves and in relation to broader South African society Rita Kesselring s ethnography draws on long term research with members of the victim support group Khulumani and critical analysis of legal proceedings related to apartheid era injury Using juridical intervention as an entry point into the question of subjectivity Kesselring asks how victimhood is experienced in the everyday for the women and men living on the periphery of Cape Town and in other parts of the country She argues that the everyday practices of the survivors must be taken up by the state and broader society to allow for inclusive social change in a post conflict setting **Patriots & Parasites** Dene Smuts,2016-11-01 Patriots The great experiment in catharsis that was the Truth and Reconciliation Commission The reinvigoration of racial polarisation under the Mbeki administration and the slow burn of resentment that is coming to a head among the next generation as manifested in the RhodesMustFall campaign The entrenchment of cronyism under Zuma and the fight to protect the crucial balance of accountability enshrined in the freedom of the media and the independence of the judiciary **Encyclopedia of African Colonial Conflicts** Timothy J. Stapleton,2016-11-07 Two volumes introduce the history of colonial wars in Africa and illustrate why African countries like the Democratic Republic of Congo Nigeria Somalia and Sudan continue to experience ethnic political and religious violence in the early 21st century This sweeping study examines the wars of colonial conquest fought in Africa during the 19th and early 20th centuries From Britain s efforts to wrest control of the Sudan from military leader Muhammad Ahmad al Mahdi to Italy s decisive defeat at the Battle of Adowa in Ethiopia to Leopold II s brutal reign over the Belgian Congo the work surveys the devastation reaped upon the continent by colonization and illustrates how its combative influence continues to resonate in Africa today Written by scholars in the fields of history and politics this complete reference includes entries on wars campaigns rebellions battles leaders and organizations The work delves into key historical periods including the Scramble for Africa ca 1880 to 1910 early European colonial wars in Africa such as the Dutch in the Cape and the Portuguese in Angola and Mozambique and African rebellions against the early colonial state in the 1890s and early 1900s Entries feature prominent events and personalities as well as lesser known occurrences and players **The Stock Exchange Official Intelligence for ...** ,1927 **Selected Water Resources Abstracts** ,1989-04 **Geomorphology in the Anthropocene** Andrew S. Goudie,Heather A. Viles,2016-10-10 The Anthropocene is a major new concept in the Earth sciences and this book examines the effects on geomorphology within this period Drawing examples from many different global environments this comprehensive volume demonstrates that human impact on landforms and land forming processes is profound due to various driving forces including use of fire extinction of fauna development of agriculture urbanisation and globalisation and new methods of harnessing energy The book explores the ways in which future climate change due to anthropogenic causes may further magnify effects on geomorphology with respect to future hazards such as floods and landslides the state of the

cryosphere and sea level The book concludes with a consideration of the ways in which landforms are now being managed and protected Covering all major aspects of geomorphology this book is ideal for undergraduate and graduate students studying geomorphology environmental science and physical geography and for all researchers of geomorphology
