Greater Kenyir Landscapes Mohd Tajuddin Abdullah, Aqilah Mohammad, Mohamed Nor Zalipah, Muhamad Safiih Lola, 2018-09-11 This book contains research findings from three major study areas natural sciences social sciences and public policy and management The focus area extends over geographical zones ranging from mountainous area of Mount Gagau in the Taman Negara National Park down to the coastal islands of Bidong Redang and Perhentian on the eastern coast of Peninsular Malaysia Chapters on natural sciences examine the physicochemical characteristics of water physiological and ecological constraints to geological and climatological aspects The social science and management chapters observe the rich ethno heritage of local communities and how they interact and develop as a culture and public policy for sustainable management Viewpoints from political science history sociology economics anthropology and management science are also taken into account This book is

intended for researchers and graduate students to create an understanding of the rich heritage while policy makers plan for future generations Readers will benefit from this book by studying the gaps in the current knowledge and move to develop further research to understand the unexplored forest canopies and the dynamics of the changing Greater Kenyir landscapes

Water Stewardship and Business Value William Sarni,David Grant,2018-04-09 The tangible value of increased water efficiency reuse and recycling and improved social license to operate are moving more companies to adopt water stewardship strategies This book frames an expanded strategy for water stewardship and business value creation including brand value that benefits a range of stakeholders including consumers customers investors and employees The book shows that until recently the linkage between full business value and water stewardship has been missing from the corporate agenda This linkage and value creation from a leading water strategy is increasingly important to socially responsible investors and aspirationalists who value companies that have a social mission or focus to their overall business strategy In general the largest portion of a company's market capitalization is intangible value and understanding how a water strategy contributes to this intangible value is essential The authors include cases studies and a framework or path forward to guide companies as they seek to build leading water strategy that goes beyond water stewardship to drive full business value from this investment The book establishes the linkages and value from an integrated water and business strategy and an approach for companies to follow
