Features

- Full-power backup function to keep the clock, the alarm radio and feature 3 and the radio operating during a power interruption, using a 6F22 battery (not supplied).

Installing the Battery

To keep good tone, your Dream Machine needs one 6F22 battery (not supplied) in addition to house current. The battery keeps the clock operating in the event of a power interruption. Before using the time on your Dream Machine, open the lid at the bottom of the unit, install the battery with correct polarity and then close the lid.

Knowing When to Replace the Battery

- To check battery power, unplug the AC power cord from the wall outlet and plug it in again after a few minutes. If the display/lens time is incorrect, replace the battery with a new one.

Precautions

- Operate the unit on the power sources specified in "Specifications".
- To disconnect the power cord, pull it out by the plug, not by the cord.
- Do not place the unit on surfaces made of blankets, etc. or over materials containing dangerous heat below the ventilation holes.
- Should anything fall into the unit, unplug the unit and have it checked by qualified personnel before re-plugging it in.
- To check the wiring, use a multi-check designed with a built-in-ground system.

When the unit will be left unplugged for a long time, remove the battery to avoid undue battery discharge and damage to the unit from battery leakage.
