**Rachmaninoff and His World** Philip Ross Bullock,2022-07-01 A biography of composer Sergei Rachmaninoff published in collaboration with the Bard Music Festival One of the most popular classical composers of all time Sergei Rachmaninoff 1873 1943 has often been dismissed by critics as a conservative nostalgic holdover of the nineteenth century and a composer fundamentally hostile to musical modernism The original essays collected here show how he was more responsive to aspects of contemporary musical life than is often thought and how his deeply felt sense of Russianness coexisted with an appreciation of American and European culture In particular the essays document his involvement with intellectual and artistic circles in prerevolutionary Moscow and how the form of modernity they promoted shaped his early output This volume represents one of the first serious explorations of Rachmaninoff s successful career as a composer pianist and conductor first in late Imperial Russia and then after emigration in both the United States and interwar Europe Shedding light on some unfamiliar works especially his three operas and his many songs the book also includes a substantial number of new documents illustrating Rachmaninoff s celebrity status in America

**Multivocality** Katherine Meizel PhD,2020-01-02 Multivocality frames vocality as a way to investigate the voice in music as a concept encompassing all the implications with which voice is inscribed the negotiation of sound and Self individual and culture medium and meaning ontology and

embodiment Like identity vocality is fluid and constructed continually even the most iconic of singers do not simply exercise a static voice throughout a lifetime As 21st century singers habitually perform across styles genres cultural contexts histories and identities the author suggests that they are not only performing in multiple vocalities but more critically they are performing multivocality creating and recreating identity through the process of singing with many voices Multivocality constitutes an effort toward a fuller understanding of how the singing voice figures in the negotiation of identity Author Katherine Meizel recovers the idea of multivocality from its previously abstract treatment and re embodies it in the lived experiences of singers who work on and across the fluid borders of identity Highlighting singers in vocal motion Multivocality focuses on their transitions and transgressions across genre and gender boundaries cultural borders the lines between body and technology between religious contexts between found voices and lost ones      *Chicken Soup for the Soul Piano Songbook* Hal Leonard Corp.,2010-04-01 Piano Vocal Guitar Songbook This uplifting collection features 40 songs of romance relationships community family and friendship in artful piano arrangements with lyrics guitar chords and even detailed notes about the songs songwriters and performance suggestions Includes All You Need Is Love Can t Smile Without You Come Together Forever in Blue Jeans Happy Together I ll Have to Say I Love You in a Song Imagine Lean on Me Somewhere Out There Stand by Me We ve Got Tonight What the World Needs Now Is Love You Raise Me Up and more      Final Moments Deborah Witt Sherman,2009-01-06 What was it like the first time a nurse witnessed death How do nurses cope with death when it becomes almost routine What lessons can we learn from their experiences Twenty five nurses from hospitals private practices and in home health care tell about their experiences with death Hear from people new to the field as well as those who have been in nursing for decades about how they deal with grief the controversies about end of life decisions the challenges of caring for people as they die and the harrowing experience of telling their family members Edited and introduced by a registered nurse the book is a resource for both nurses and anyone who wants to better understand death and dying
