Indigenous Research Methodologies Bagele Chilisa, 2019-11-04 Author Bagele Chilisa has revised and updated her groundbreaking textbook to give a new generation of scholars a crucial foundation in indigenous methods methodologies and epistemologies Addressing the increasing emphasis in the classroom and in the field to sensitize researchers and students to diverse perspectives especially those of women minority groups former colonized societies indigenous people historically oppressed communities and people with disabilities the second edition of Indigenous Research Methodologies situates research in a larger historical cultural and global context to make visible the specific methodologies that are commensurate with the transformative paradigm of social science research Chapters cover the history of research methods ethical conduct colonial and postcolonial epistemologies relational epistemologies emergent and indigenous methodologies Afrocentric research feminist research narrative frameworks interviewing and participatory methods New to the second edition are three new chapters covering evaluation mixed methods and mixed methods evaluation These chapters focusing on decolonizing indigenizing and integrating these methods and applications to enhance participation of indigenous peoples as knowers and foster collaborative relationships Additional information on indigenous quantitative research reflects new developments in

the field New activities and web resources offer more depth and new ways for students to extend their knowledge This textbook includes features such as key points learning objectives student exercises chapter summaries and suggested readings making it an ideal textbook for graduate level courses **The Zimbabwe Science News** ,1981 *Towards Inclusive Education in Zimbabwe* Tsediso Michael Makoelle,Tsitsi Chataika,2025-02-24 This book aims to provide a comprehensive review of the state of inclusive education in Zimbabwe since the adoption of the philosophy in 1994 While literature exists that accounts for the situation regarding special and inclusive education in Zimbabwe there is a need for a more thorough and complete understanding of the state of inclusive education in the country This book explores and reflects on the perspectives of various stakeholders within the Zimbabwean education system It offers a conceptual understanding of the implementation of inclusive education in a postcolonial and politically troubled Zimbabwe and provides recommendations for policy development and formulation as well as the development and strengthening of inclusive teaching and learning practices The insights offered in this book could have a significant impact on clarifying the roles of stakeholders and ensuring that education provision leads to student support that addresses the needs of all students in Zimbabwe *Proceedings of the ... Annual Conference and ... Conference of CASTME Africa* Science Teachers Association of Nigeria. Conference,2002 Zimbabwe Agricultural Journal ,1984 Resources in Education ,1997 **Proceedings of the 17th Biennial Weed Science Society Conference for Eastern Africa, Harare, Zimbabwe** ,1999 Integral Ubuntu Leadership Passmore Musungwa Matupire,2016-10-04 The four worlds as we know them today the North West South and East are out of balance The West and the North generally dominate on a global scale while the South and the East lag behind This also happens at individual societal and organisational levels It is clear that there is a need to change the way we lead our organisations in business and the way we think about leading in politics Here is a comprehensive exploration of the Integral Leadership challenges of the twenty first century The author combines the African philosophy of Ubuntu or humanness the cornerstone of African thought and life with the concept of Integral Leadership with particular reference to Lessem and Schieffer s combining in their 2010 book *Integral Research and Innovation of nature and community culture and spirituality science and technology and politics and economies* This connectedness in the new paradigm of wholeness and relatedness goes beyond the relationships of human beings alone and involves experiences with nature and community Leadership is viewed from an indigenous and exogenous perspective bringing together a newly Integral approach which will also introduce industry ecology and knowledge ecology as an evolution of the Ubuntu philosophy The author offers a unique forum through which to commit to paper the operationalisation of the Integral Ubuntu Leadership model in catalysing development efforts and in CARE ing for communities and societies *Library & Information Science Abstracts* ,2008 *Natural Capital* Peter Kareiva,2011-04-07 In 2005 The Millennium Ecosystem Assessment MA provided the first global assessment of the world s ecosystems and ecosystem services It concluded that recent trends in ecosystem change threatened human wellbeing due to

declining ecosystem services This bleak prophecy has galvanized conservation organizations ecologists and economists to work toward rigorous valuations of ecosystem services at a spatial scale and with a resolution that can inform public policy The editors have assembled the world s leading scientists in the fields of conservation policy analysis and resource economics to provide the most intensive and best technical analyses of ecosystem services to date A key idea that guides the science is that the modelling and valuation approaches being developed should use data that are readily available around the world In addition the book documents a toolbox of ecosystem service mapping modeling and valuation models that both The Nature Conservancy and the World Wide Fund for Nature WWF are beginning to apply around the world as they transform conservation from a biodiversity only to a people and ecosystem services agenda The book addresses land freshwater and marine systems at a variety of spatial scales and includes discussion of how to treat both climate change and cultural values when examining tradeoffs among ecosystem services *Complex Classroom Encounters* Rinelle Evans,Ailie

Cleghorn,2012-12-30 This scholarly work appears at a crucial moment in South Africa With the country now democratically independent for close to 20 years the authors provide a comprehensive description of schooling and overall education that allows the reader to see if or how the wide social development gaps that existed during the apartheid period are changing This book is a rare academic contribution to the current linguistic and culturally rich classroom that teachers now work in daily The authors report that some teachers are flummoxed by what they find newly trained teachers seem better prepared while others bring old but good teaching habits into the classroom Overall this book rooted as it is in meticulous long term ethnographic classroom observations and multiple teacher interviews shows that what is effective for the learning of learners is not by any means detachable from demographic economic or political contexts With that in mind the book s intentions and structure are clear and the initial historical analyses provide insight to the important linguistic social and cultural connections or disconnections present in contemporary South Africa *Yearbook of International Organizations* ,1999
