Fombad,Nico

Steytler,2022-11-14 Despite expectations that the celebrated second wave of constitutional democracy in the 1990s would facilitate economic development Africa remains the continent with the highest level of poverty in the world The fight against poverty hinges on a vibrant economy that creates jobs and income by generating enough revenue to enable the state to take pro development measures However instead of the economic benefits that were supposed to accrue from the constitutional reforms of the last three decades including entrenching a market economy African economies remain weak a situation that has been aggravated by the COVID 19 pandemic By focusing on the relationship between constitutionalism and economic

growth in Africa this volume addresses five questions 1 In the constitutional reforms of the 1990s and thereafter did constitutions also reflect the shift towards a market economy and if so in what manner 2 Given that agriculture and extractive industries are the main sources of state revenue in many African economies how are matters of land and other natural resources dealt with constitutionally 3 Where the market economy is captured in a constitution what is the state's relationship to that economy interventionist or laissez faire or somewhere in between Have constitutions also established a social state that provides its citizens with the basic elements of a dignified life 4 In the process of constitution making and implementation concerning the economy what impact has globalization had on constitutionalism and economic growth in Africa 5 Finally how has the relationship between constitutionalism and economic growth played out in practice Is there a symbiotic relationship Has constitutionalism led or may do so to greater economic prosperity Constitutionalism and the Economy in Africa offers a range of comprehensive arguments and case studies that will be of interest and use to academics post graduate students judges lawyers economists and policy makers involved in the economic role of the State the impact of globalization and the constitutional foundations for land and natural resources exploitation

*Innovation, Regional Integration, and Development in Africa* Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26 This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union

**Extractive Industry Indigenisation in Zimbabwe** Kennedy Manduna, 2025-09-25 This book explains how and why

Zimbabwe's extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe's extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe's government following the controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development

**Christian Theological Education and the Response to the Crisis in Zimbabwe** Bekithemba Dube, Gift Masengwe, 2025-10-02 The book offers an incisive examination of the governing philosophy of the Zimbabwe African National Union Patriotic Front ZANU PF referred to as Zanupfism characterizing it as marked by callousness and malevolence towards dissenting voices from civil society and opposition factions This pernicious application of power extends beyond mere verbal aggression to encompass militaristic actions engendering a profound generational crisis within Zimbabwe The contributors explore the compelling juxtaposition between President Emmerson Mnangagwa and the biblical Nebuchadnezzar II a ruler notorious for his autocratic reign and expansive ambitions Further critically scrutinizing the complicity of neo Pentecostal prophets in the book reveals how these religious figures promote an esoteric understanding of the divine diverging from a theology rooted in justice thereby enabling the oppressive regime's practices This critique underscores the imperative for prophets to recalibrate their theological perspectives urging them to move beyond magical interpretations of faith toward an authentic engagement with a personal God who champions justice The book further encompasses the complex interplay of political and religious narratives examining how church leaders either bolster or undermine Mnangagwa's political ideology highlighting the tendency among certain religious factions to deify political authority ultimately exacerbating societal inequities In advocating for a transformative theological discourse in Zimbabwe the book asserts that religious narratives must serve as instruments for fostering democracy social justice and equity rather than sustaining a status quo that entrenches authoritarian governance

The necessity for unified principled resistance grounded in the collective agency of the populace emerges as a salient theme in the quest for meaningful political and social reform      **Labour and Economic Change in Southern Africa**
