Zimsec Ordinary Level Shona Paper:

Regime and Education in Zimbabwe Bekithemba Dube, Albert Mufanechiya, 2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy

Education and Development in Zimbabwe Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a

comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in how the sociopolitical shapes education how ideology policy international pressures economic factors and shifts in values collectively forge the historical and contemporary character of a country s education Handel Kashope Wright Professor of Education University of British Columbia Teacher in Zimbabwe ,2014 **Annual Report of the Secretary for Education for the Year Ended ...** Zimbabwe. Ministry of Education,1980 **Contrastive Rhetoric in Shona and English** Juliet Thondhlana,2000 The influence of the learner s mother tongue on the use of a second language has long been of interest within applied linguistics Whilst most studies have focused on the sentence level contrastive rhetoric has broadened this area of investigation to the levels of discourse and text This study explores and applies the approach to written English and Shona of Shona native speakers in Zimbabwe It is both theoretical and practical highlighting the importance of multi dimensional andnon evaluative analytical frameworks and providing information for second language teachers and learners Moto ,2005 Zambezia ,1991 **International Handbook of Mathematical Learning Difficulties** Annemarie Fritz,Vitor Geraldi Haase,Pekka Räsänen,2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there s still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings Now it s time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society **Zimbabwe Books in Print** ,1998 *An Investigation of Secondary School Language Teachers' Conceptions of Literacy and how These Conceptions Relate to Literacy Instruction in Zimbabwe* Albert Natsa,1994 *Zimbabwe National Bibliography* ,1994 *LWATI* ,2007 Development of Education Zimbabwe. Ministry of Education,1996 Great Zimbabwe Shadreck Chirikure,2020-11-29 Conditioned by local ways of knowing and doing Great Zimbabwe develops a new interpretation of the famous World

Heritage site of Great Zimbabwe It combines archaeological knowledge including recent material from the author's excavations with native concepts and philosophies Working from a large data set has made it possible for the first time to develop an archaeology of Great Zimbabwe that is informed by finds and observations from the entire site and wider landscape In so doing the book strongly contributes towards decolonising African and world archaeology Written in an accessible manner the book is aimed at undergraduate students graduate students and practicing archaeologists both in Africa and across the globe The book will also make contributions to the broader field such as African Studies African History and World Archaeology through its emphasis on developing synergies between local ways of knowing and the archaeology

The World of Science Education Femi S. Otulaja, Meshach B. Ogunniyi, 2017-09-12 Each volume in the 7 volume series The World of Science Education reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel North Africa and the Middle East and Sub Saharan Africa The focus of this Handbook is on research in science education in mostly former British colonies in Sub Saharan Africa and the scholarship that most closely support this program The reviews of the research situate what has been accomplished within a given field in Sub Saharan Africa rather than an international context The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next *Prospectus* University of Zimbabwe, 1984

Handbook of Research on Digital-Based Assessment and Innovative Practices in Education Keengwe, Jared, 2022-05-06 Even though digital technologies are ubiquitous in education assessment methods continue to employ traditional assessments even though they are inadequate to provide information about a student's reasoning and conceptual understanding Digital based assessment models allow students to demonstrate higher order skills while integrating digital technologies as a powerful teaching tool Digital technologies can support inquiry based learning that is essential to developing a deep conceptual understanding of the content The Handbook of Research on Digital Based Assessment and Innovative Practices in Education identifies digital tools and applications for effective assessment of learning shares various models of digital based assessment in education and considers best pedagogical practices for assessment in education Covering a range of topics such as formative assessments design thinking virtual reality and equity this major reference work is crucial for educational technologists instructional designers policymakers administrators faculty researchers academicians scholars practitioners instructors and students

(Re)Constructing Memory: Textbooks, Identity, Nation, and State James H. Williams, Wendy D. Bokhorst-Heng, 2016-07-08 This book engages readers in thirteen conversations presented by authors from around the world regarding the role that textbooks play in helping readers imagine membership in the nation Authors voices come from a variety of contexts some

historical some contemporary some providing analyses over time But they all consider the changing portrayal of diversity belonging and exclusion in multiethnic and diverse societies where silenced invisible marginalized members have struggled to make their voices heard and to have their identities incorporated into the national narrative The authors discuss portrayals of past exclusions around religion ethnicity sexual orientation as they look at the shifting boundaries of insider and outsider This book is thus about who we are not only demographically but also in terms of the past especially how and whether we teach discredited pasts through textbooks The concluding chapters provides ways forward in thinking about what can be done to promote curricula that are more inclusive critical and positively bonding in increasingly larger and more inclusive contexts *Empowerment Through Language* Zaline M. Roy-Campbell,2001 **Indicator South Africa** ,1989
