Restoring the Educational Dream. Rethinking Educational Transformation in Zimbabwe Shizha, Edward, 2013-12-07 The role of education in human well-being and social development cannot be overestimated. After a number of highly commendable policies on education in the first decade of independence, the education system in Zimbabwe has taken a tumble that needs both examining and rectifying. This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980. The book is targeted at academics, scholars, college and university students, policy makers, and other stakeholders and advocates a multi-pronged approach that must involve all stakeholders if educational retransformation, reconstruction, and restoration are to be achieved. The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe.

Beyond the Enclave Godfrey Kanyenze, Timothy Kondo, 2011-07-26 Beyond the Enclave sets out to unravel the contradiction of a country, Zimbabwe, where a rich, diverse resource base co-exists with endemic poverty. One reason lies in the colonial economy which was predicated on an ideology of white supremacy, creating an enclave formal economy employing one-fifth of the labour force. Yet over three decades after independence, the non-formal segment has become even more entrenched. This book assesses Zimbabwe's economy through three main phases: 1980-90 when a strong social policy framework proved difficult to sustain due to erratic growth; and 1991-96 when structural adjustment demanded a market-driven approach to development. The third phase is characterized by crisis management leading to policy inconsistencies and reversals. Not surprisingly, such incoherence saw the economy descend into hyperinflation and paralysis in 2007-2008, leading to the signing of the Global Political Agreement in September 2008. In the absence of formal dollarization, economic recovery after the adoption of the multi-currency regime has remained fragile, leaving an estimated 70 per cent of the population outside the banking system. This has further entrenched uneven enclave growth as the economy remains locked in a low-income poverty trap. There is a need to facilitate transition towards formality to promote decent jobs. Furthermore, a strategic developmental role for the state in the economy is now widely recognized as vital for development. Beyond the Enclave argues for a new approach to development in Zimbabwe based on pro-poor and inclusive strategies which will contribute to the well-being of all of its citizens and wise stewardship of its resources. It offers suggestions on policy formulation.
